RACIAL GROUPS PLAN PROTEST ON QUOTA LAW

"National Origins" Clause Being Studied by Federal Committee

NUMBER OF BILLS CALL FOR REPEAL

Some Would Extend Quota Figures-Both Sides Are Being Presented

Special from Monitor Bureau WASHINGTON, Jan. 19-The possibility of a combination of societies representing racial groups in the United States to break down immigration restriction as a result of resentment against the "national origins" provision of the law, was brought to the attention of the brought to the attention of the House Immigration Committee to-day by Albert Johnson (R.), Representative from Washington, chairman of the committee.

Henry Ford Company's civics, and economics in the schools. man of the committee.

The national origins provision of the 1924 act, which would go into effect on issuance of a presidential proclamation issued on or before April 1, 1927, would pro-rate total annual quotas of 150,000 on a basis of the national origin of citizens as shown in the 1920 census.

The committee is considering a

number of bills to repeal or modify the provision, and is investigating the method by which the special comnittee of six arrived at the compuations used as a basis for the proed new quotas.

Mr. Johnson declared that a num-Mr. Johnson declared that a number of societies representing foreign-born American citizens opposed the provision when it was first suggested, and that the American Equality Association of New York, representing a number of these groups, has for its primary object opposition to immigration restriction.

Committee's Duty "The committee must decide whe

ther it is worth while to go shead with the national origins provision, with the possible result of encouraging such opposition," he said. "We must also consider the possibility that it would lead to a combination of the various groups who would suffer from the cuts made in certain na-

an advocate of the national origins plan, believed that the increase in the British quota under the plan is desirable from the viewpoint of national welfare, since "our institutions are distinctly of English character," and the early immigration to America was predominantly British. "Of course you are going to have protests from racial groups who feel that they are discriminated against

that they are discriminated against both by taking 1890 as a basis for estimating quotas, as provided in the 1924 law, and by the changes in quotas provided in the national origins plan," Mr. Trevor told the committee. "Any arbitrary census date will discriminate against somebody. But in none of the material distrib-uted by these groups working

Food Is Scattered for Chicago's Birds

Rectal from Monitor Bureou
Chicago, Jan. 19
WHEN heavy snows recently
fell over this region, sources food were covered for birds dwelling in expansive wooded areas of the forest preserve bordering Chicago, so Ranson Kennicott, its chief forester, issued an order for the wardens to distribute great bundles of giant millet for the community's feathered friends.

community's feathered friends.

A special effort was made to see that all birds were provided for during the bad weather, said Mr. Kennicott. He had caretakers set in the snow big bunches of the grain to which the birds flocked. The men also distributed 150 bushels of corn. An appeal for persons to feed the birds, particularly during stormy times, has been made by the chief forester.

ESTIMATES FORD SHARE AT \$12,000

is Henry Ford himself, in the opinion of Alvan Macauley, president of the Packard Motor Company.

Mr. Macauley, giving expert testimony for the defense in the government tax suit against former stockholders of the Ford company, termed Mr. Ford a man of daring ideas who led the way suit every conceivable manner in the automobile industry.

Asked his opinion as to the proper valuation of Ford stock as of 1913. valuation of Ford stock as of 1913, which was originally set by the Gov-ernment at \$9,489.34 a share, but which it now maintains should have which it now maintains should have been less than \$3600, Mr. Macauley boosted the original price by setting the figure at \$12,000 a share. The Government maintains it lost approximately \$30,000,000 in taxes on profits accruing from the sale as the result of the high original valuation.

The Packard president also as-

The Packard president also asserted the belief that the withdrawal of Henry Ford from the company would have been a serious threat at its prospects. The former stockholders' case includes a contention that more than \$12,500 a share might have been asked in 1919 had not the holders feared Mr. Ford might leave the company and establish opposi-

tion.
A. W. Gregg, chief of government

concerning the Selden patent case evidence entered by defense, Mr. Gregg elicited from Peter E. Martin, Ford company vice-president, a declaration that "I at no time felt we were greatly hampered by the Selden patent." Appellants' counsel had held that prior to the final settlement of the Selden suit in 1911, progress and prospects of the company were much prospects of the company were much hindered by the famous patent liti-

SENATE REJECTS High State Officials Sworn LAUSANNE PACT BY 34 TO 50 VOTE

Democratic Opposition to Ratification Is Led by Senator Swanson

Special from Monitor Bureau WASHINGTON, Jan. 19-Ratification of the Lausanne Treaty was rejected by the Senate by a margin of six votes. The count of 50 for approval and 34 against was six short of the two-thirds necessary to confirm the pact.

The issue of ratification was settled practically on party lines. With the exception of George H. Moses (R.), Senator from New Hampshire, the Republicans supported ratifica-tion. Six Democrats, however, voted against their party platform and with the Republican majority fol-lowing the acceptance of a reservation requiring a naturalization treaty with Turkey before the pact could become operative.

View of Senator Borah William E. Borah (R.), Senator rom Idaho, chairman of the Foreign organizations, Rotary, Kiwanis, Chambers of Commerce, organiza-Relations Committee, who was floor leader in the contest for the treaty women, the American Legion, ministers and church groups, public librafollowing the vote refusing to ratify expressed the opinion that the reies, universities and colleges, and jection would leave the United States cational program and its prospects for success in Massachusetts, em-phasized the point that propaganda and all reference to seeking the

same as that which existed between the United States and Russia.

The fight against the treaty was lead by Claude A. Swanson (D.), Senator from Virginia, ranking minority member of the Senate Foreign Relations Committee, and William H. King (D), Senator from Utah. Following the rejection of the treaty, Mr. King issued a statement declaring questions of law have been disciplined to the state House for the past 10 years, Mr. Benton, who served two years in the Legislature, four years as attorney-General, said:

"During the past four years a large number of difficult and important cases, numbering nearly 40,000, involving novel and interesting questions of law have been disciplined to the state House for the past 10 years, Mr. Benton, who served two years in the Legislature, four years as assistant Attorney-General, said:

His statement coincides with a petition read by Robert L. Bacon (R.), Representative from New York,

addressed to Congress by 34 uni-

versity professors, condemning present quota restriction as "inadequate,"

and threatening to become more so.

In addition to the 164,000 quota

immigrants now entering America annually, Mr. Hull said, unlimited numbers of western hemisphere non-

quota aliens may enter, with the "startling total of 175,865 natives of

such countries," in the first year of the law, who came for permanent residence. Since the first quota law in 1921, 900,000 natives of non-quota

western hemisphere countries have entered, with 42,638 from Mexico in 1926 alone. Under a quota, he said, the Mexican limit in 1926 would have

Mr. Hull's Viewpoint

and land law controversy between Mexico and the United States.

The question of arbitration has been discussed in a general way here, however, and has been mentioned by both Señor Saens and President Calles several times lately, and semiofficial circles have maintained that such a step would be acceptable to Mexico. acceptable to Mexico.

On the other hand, many Americans with heavy investments in Mexico are understood to oppose such a procedure, believing that arbi-

Mexico are understood to oppose such a procedure, believing that arbitration, whether before the Hague (A)—The executive council of the Tribunal or through the mediation of Argentine, Brazil and Chile, would only "pigeonhole a showdown" which must come later.

An official denial that Mgr. Orozco y Jiminiez, Archbishop of Guadalajara, is leading a Roman Catholic revolt in the State of Jalisco has been issued at the offices of the Mexican Episcopate. Roman Catholic circles declare the report is one of many attempts to discredit the church and point to the statement of Gen. Miguel Pina, Undersecretary for Gen. Miguel Pina, Undersecretary for the council at the many attempts to discredit the church and point to the statement of Gen. Miguel Pina, Undersecretary for War, who declared, "The War Office has no definite proof of the Jiminez revolt."

Nation-Wide Appeal Made "NEW YORK, Jan. 19 (AP)-An apheal signed by 400 prominent men nd women throughout the country for arbitration instead of force as the best means of settling differ-ences between the United States and Mexico has been forwarded to Presient Coolidge.

ernor of Massachusetts.

The petition urges "extension of rive at an absolutely accurate the determination of racial groups as a of the quota system to all countries of North and South America, in which the population is not pre-dominantly of the white race." It retaries of Commerce, Labor and State are sufficiently accurate for the urges that the provision of the 1924 quota act, providing for quotas based on the percentage of national origins, "be promptly put in effect."
Some Comment A "startling" number of aliens from countries not affected by the quota law are entering the United States, declares Harry E. Hull, Commissioner-General of Immigration.

Speaking of the criticism that

lass been so much increased by this process is that there are so many people of that national origin in this country. The theory of the law is that every individual now in America shall have equal representation in the quota. I have always felt that it was wrong to base the quotas on the number of foreign born in this country, because that process ignored all of us who are native born.

"Now that we have the results of this investigation, I expect that the this investigation, I expect that the whole matter will be taken up by the Immigration Committee of the House and Senate for further study. There is a serious movement on foot to limit the quota of any one nation to 35,000 persons and this will have

GOOD

Mr. Hull declares "a great injustice is being done," in permitting unlimis being done," in permitting unlimited Mexican entry while restricting immigration from certain Old World countries that have contributed to American history. While Congress has limited Old World immigration to 164,000 annually, the total immigrants admitted is more than twice that number.

CHANG'S TROOPS **HELD IN RESERVE**

Manchurian War Lord Has Powerful Army to Combat Cantonese Forces

PEKING, Jan. 19 (P)-Most comments from abroad regarding the Chinese situation appear to take it for granted that the Nationalists of Cantonese, are certain to continue their advance and soon control Shanghai and probably all of China. Buch a development is by no means

Marshals Sun Chuan-fang and Wu Pei-fu are at least holding their own against the southern forces at pres-ent, while General Chang Tso-lin, Manchurian dictator, has not yet en-tered the fray. Foreign militarists all declare that Chang Tso-lin possesses much the best military machine in China, It is superior to the Canton-ese in number, munitions, equipment and staff organization. Hence, if a

cently formed, powerful alliance of northern war lords.

Marshal Sun is opposing the northward advance of the Cantonese at Hangchow, 110 miles from Shanghai, while Marshal Wu's forces are in the interior of Honan, to the north and west.

FOOCHOW, Jan. 19 (A)-Although the authorities here promised pro-tection to foreigners and foreign property, lack of discipline among and circulation of sinister ation is quiet at present.

AMOY, Jan. 19 (A)-The tide of anti-Christian feeling is rising here. Propagandists are exerting every means to incite the populace to an The situation is dis-

LONDON, Jan. 19 (A)—Public per-lexity over the seeming discrepancy of the extensive naval preparations with the Government's announced policy of conciliation toward China has been increased by the announcement that 1000 marines will sail for China in two Union Castle liners toward the end of January from

Official quarters have offered assurances that there is nothing war-like in these movements; that the marines will be used only for purposes of defence, should the necesity arise; that the Government is still hopeful of a satisfactory solution, as the Cantonese Foreign Min-ister, Eugene Chen, at Hankow, is anxious for resumption of business, and that the British Government is only doing an elementary duty in being fully prepared and in readi-

The navy, it was revealed, is acting as a watch dog in the situation by holding Marines at Guam and San Diego, together with the cruiser Huron at the former naval base, waiting eventualities.

Britain to Try to Meet

the Cantonese Demands

By Wireless from Monitor Bureau LONDON, Jan. 19-Mr. O'Malley, counsellor of the British Legation at Peking, who is now conducting negotiations with Eugene Chen at Hankow, has been given instructions which will enable him to sat-isfy "fully 70 per cent" of the Can-tonese demands. It is also empha-sized that the naval reinforcements, which it has now been decided shall proceed to China forthwith, will on no account be used for aggressive purposes or even for a naval demontration, but purely defensively.

The Foreign Office is in constant

touch with other governments with a view to concerted measures of de-fense, should these be found neces-sary. Thus in Shanghai, where the French have a separate settlement, it is already agreed that the French and British will respectively protect their own nationals. Ramsay Mac-Donald, leader of the Opposition, is being kept fully informed as to the course of events, including the main lines of the Government's policy. This is in accordance with the usual practice, foreign policy being always regarded as outside the sphere of party politics.

ITALY OPPOSES DRUG TRAFFIC

Delegate at Geneva Takes Strong Attitude-League Supervision Is Proposed

GENEVA, Jan. 19-"In combating the drug traffic Italy feels it is fighting, not only for its own civilization but in the interests of man-kind as a whole." So spoke Stefano Cavazzoni, Italian delegate on the advisory committee dealing with the traffic in opium and dangerous clash comes, the Manchurian general traffic in opium and dangerous has the advantage unless his soldiers drugs. His description of the measure won over to the other side. Chang Tso-lin is head of a re-ently formed, powerful alliance of suppression of contraband greatly orthern war lords. least Stanley Woodward, the American observer, for, except in one point, namely that the control over manufactured drugs should be carried out by the League of Nations the Italian proposals corresponded in a remarkable degree to the Amer-ican plan for the stricter regulation of the drug traffic.
Signor Cavazzoni indeed propose

that limitation and rationing should be adopted by each country according to its medical and scientific rumors have caused many women and children to leave port. Fifty-nine needs. Supervision would then, he American missionary women and children left for Manila. The situ-without limitation of this kind it was really a farce as the extent of illicit smuggling showed. There is much to be said for the

argument that so long as drugs are manufactured beyond medical and scientific requirements, illicit trading is impossible to control. On the other hand, it is difficult to see how the League could undertake the control the general desire to avoid a governof the drug traffic, as Signor Cavaz- mental break. If Aristide Briand, as zoni suggested, and it is generally agreed here that it would be better or the states, signatories to The Poincaré, the country will suffer and Hague convention, do this for themselves, although in some quarters it was thought that the League might determine the quota to be manufactured by each country.

Happily, M. Briand refuses to associate himself with such a course and emphatically confirms the view expressed that no crisis need be en-

The discussion of the proposal will be resumed later. In the meantime it is regarded as remarkable that Italy should have taken much that the state of the state drugs, but as Signor Cavazzoni pointed out, its position as a transit country rendered it particularly liable to be abused by the drug traffic, while it is known that Benito Mussolini, the Premier, takes a Mussolini, the Premier, takes a strong personal interest in the elimination of this abuse, as being part of the campaign for the better efficiency of the Italian people.

It is encouraging from the League of Nation's viewpoint that the Fascist Government should have paid such the Rhineland. Nevertheless, in New Orleans to replace the New an unexpected compliment to it, in spite of his denials, it has been gen- York, an unexpected compriment to it, in suggesting that the League should take control of the manufacture of well as popular circles, both in landing gear of all the airplanes benefit of the information that a business constant also will be made at Panama in the landing gear of all the airplanes benefit of the information that a business constant and the information that a business constant and the information that a business constant and the information that a business constant are control of the manufacture of the information that a business constant are control of the manufacture of the information that a business constant are control of the manufacture of the information that a business constant are constant as a second and the information that a business constant are constant as a second and the information that a business constant are constant as a second and the information that a business constant are constant as a second and the information that a business constant are constant as a second and the information that a business constant are constant as a second and the information that a business constant are constant as a second and the information that a business constant are constant as a second are constant as a second are constant as a second and the constant are constant as a second are consta

three huge army base buildings erected by the Government during the war at a cost of \$5,000,000, and Big Increase in Wool Prothe war at a cost of \$5,000,000, and turned over to the association by Congress at a rental of \$1 a year. It 4s a nonprofit-making institu-tion, with all net revenues being plowed back into the project in the form of advertising or by bringing bluers from foreign countries to the duction Is Forecast by Leeds Professor

By Wireless from Monitor Bureau buyers from foreign countries to the LONDON, Jan. 19-A big increase in wool production is forecast by Aldred Farrer Barker, professor of textile industries at Leeds Univerwere 200 exhibitors occupying less There are now 500 exhibitors, and the better part of two floors is sity. Professor Barker expressed this opinion in an address here last night in connection with the fact that City filled. Contracts for space are coming in daily. More than 300,000 people have passed through the doors of London Company of Woolmen has conferred its gold medal for re-search this year upon R. S. M. Stordy of the Peruvian Government's experimental farm. The marked de-velopment of wool growing, Profes-The real measurement of value is the sales results to the exhibitors.

TO HANG PICTURES Moore Push-Pins

sor Barker said, concerned the increase in the weight of the fleece.

Broadly speaking, Australia had increased the normal four pounds merino fleece to six pounds in 1900 to eight pounds by 1910, and by 1923 in some cases, to at least 10 pounds.
Unfortunately in doing this the true
merino character of the wool fiber
had been partly lost.
It was conceivable that in Peru

It was conceivable that in Peru the one and a half pound fleece might readily be raised to four pounds and then to six pounds, and it might be that the real merino type of wool could be obtained. As Peru was reported to have already some 12,000,000 sheep it was evident that a great addition to the world's wool supplies might be anticipated.

might be anticipated.
While Peru was developing its wool the Argentine meat industry was markedly affecting the wool in-dustry, the number of sheep in Argentina now being approximately half what it was about 1895. Wha would happen if Australia developed

BULE EXPECTED

Special Committee to Delay Legislation

More effective supervision and control of the operation of this year's budget, which will probably amount to some \$45,000,000, is assured the taxpayers by Mayor Nichols, who indores the recommendations made by the special committee of the Boston City Council on the conduct of the budget. The committee, consisting of Henry Parkman Jr. and John J. Heffernan, finds that a substantial saving will result if the items in the segregated budget are made to stand as individual appropriations for specific purposes whose funds cannot be transferred for expenditure

The committee, in report, refers to the opening of the new bridge certain defects which it believes to marked the passing from the neighborhood of the picturesque covered budget has been operating, but no bridge, formerly so common through-responsibility is attached to any one particular administration. The com-found.

itures to the specific physical items 1921 of for which the city's money is originally requested in forming the budget, and appropriated in the annual appropriation bill.

"Under the existing system there is no method for limiting in advance the expenditure of money within any item to the amount limited by the budget and appropriation bill to that particular item

Summing up the committee says: "Your committee finds, therefore, that it is desirable in the interests of economy and efficiency that means be devised to control expenditures to the specific physical items for which appropriation was made, and to limit expenditure for any item to the amount allowed for such item in advance of the expenditure being in-

Oregon medsl.
Dr. Malcolm Storer supplies some comments on it, pointing out that in 1787, when it was struck, it was no light matter to send out an exredition to far-distant Oregon, and thus the medal brings into relief the tangible recollection of valiant

cess by these men.

Tales were reaching Boston in those days of immense financial profits being made by one, Dr. Cook, by the sale to wealthy Chinese of turs he had picked up on the northtinue to observe the operation of the budget in order to see whether or not effective control can be obtained by executive order, or whether it is advisable to consider further whether legislation or ordinance may be necessary."

That trait in New England men, their love of adventure, was aroused, and in 1787, at the instigation of Joseph Barrell, a group of men met at the home of Dr. Bulingch to form a company which should carry trade on to Oregon.

An Adventurous Group

In the group with Barrell were John Derby, shipmaster of Salem; Charles Buifinch Jr., then a rising young architect; Capt. Crowell Hatch of Cambridge; Samuel Brown, trader of Boston, and John Marden Pintard of New York. The capital was to be \$50,000 divided into 14 shares. Two ships, the Columbia and the Wash plans the Columbia and the Columbia a

COLLECTIONS ARE GAINING THEIR WINTER SPORTS

Reports an Advance of 12 Per Cent in 1926

ST. ALBANS, Vt., Jan. 19 (AP)-A

The largest single source of revenue was hay, of which 160,482 tons, or nearly 14,000 carloads, paid \$641,-928, at the rate of \$4 a ton. Cream and milk importations paid \$569,-933.30 into the United States coffers. The 2.816.105 pounds of maple sugar rought from Canada yielded \$112,-

Potato importation, principally from the Maritime Provinces, gained considerably this year, due to short crops in some parts of the United States. Duties of \$30,000 were paid on the 100 on which the 100 on the provinces. the 100,000 bushels entered.

the 100,000 bushels entered.

Live stock paid a duty of \$8072, while \$85,746 was paid on the 3,000,000 pounds of dressed beef which crossed the border. Bran, alone of the feed stuffs, paid \$60,460 on 40,000 tons. The nickel mines of northern Canada shipped through the district Canada shipped through the district more than two tons of unworked metal on which \$67,000 was collected. The commodities which showed the largest gain in quantity over 1925 figures were hay, cream, beef cattle and dressed beef.

MUSIC

Gilbert Ross

Gilbert Ross, violinist, gave a recital at Jordan Hall last evening. Edward Harris served as accompanist for Mr. Ross in this program which preserved an effective musical balance with its four divisions. Brahms' D minor Sonata for plano and violin, Albert Spalding's "Etchings" and Chausson's "Poeme" were the three musicianly works of large scope. For conclusion Mr. Ross chose four modern pieces.

chose four modern pieces.

Mr. Ross presents many unusual features in his style. His playing is neither of the coolly intellectual variety nor yet of the warmly emotional brand. Between the two it finds an individual ground, but the combination of qualities is not always felicitous. Mr. Ross tonal quality shows little warmth. Yet it does not own the clear brilliance, the metailic sheen of another method of metallic sheen of another method of performance. But with phrasing, there exists full-blown ardors and occasionally a chiseled precision. Likewise the melodies may sing ex-pressively or flick the listening ear

with vigorous rhythms.

An evident unevenness character-izes much of Mr. Ross's playing, But may not this he due to youthful years and brief experience rather than to any less remediable cause? For one discerned attributes of worth as well as other qualities. Mr. Rosa's playing became consistently botter as the evening progressed. His interpretation of Spalding's "Ettchings" considerably bettered the impression left by the Brahmsian music, which had contained tones frankly scratchy and the spanding tones frankly scratchy contained tones frankly scratchy and a reading often verging on the frag-mentary. Spalding's work is really a series of variations, given descrip-(a softly mysterious music), "Ghosts" (amusingly weird with many pizzicato pluckings), and finally the bubcato pluckings), and finally the bub-bling "Happiness" a fine musical summing up. If this use Mr. Spalding has made of the variation form be neither unique nor startling, it is at least effective and carefully executed.

Varied facets of musicianship re-side in Mr. Ross's playing, One would like to see polished still brighter those which reflect rhythmic changes, tonal color and phrasing.

STRONGER POWER MAINE LITERACY LAW IS PROPOSED

Prevention of Future Federal Control Objective of Maine Measures

AUGUSTA, Me., Jan. 19 (Special) Almed to prevent a future poss! ble federal control of water powers in Maine, two bills designed to strengthen the present Fernald Law on water powers were introduced into the Maine Legislature late yes-terday afternoon by Charles B. Car-ter of Lewiston, State Senator, In the first bill, Senator Carter urged the amending of all charters

of corporations generating and supof corporations generating and sup-plying electricity, so that each "cor-poration is expressly limited in its corporate powers as to the trans-mission of electricity to an area en-tirely within the boundaries of the State of Maine." In the other bill, the Senator advocated limiting cor-

The two proposed acts have the purpose of separating the generating as opposed to the present system generating and transmitting such power, by corporations. This separation of functions will give to the State the sole control of the local

generation of power.
Senator Carter believes all danger of subsequent federal jurisdiction of rating fixing of power transmission will be averted if his bills are passed. He called attention to the recent Rhode Island decision, in which the that transmission of power over state border lines comes under the juris-diction of interstate commerce. The decision referred to such transmis sion as "essentially national in character. The rate is therefore not subject to regulation by either of the

The present Maine law, instituted during the administration of Gov. Bert M. Fernald, prohibits the exportation of such power over the state border. Senator Carter, together with many other members of the Legislature, believes that any future change of allowing the power to be sold outside of Maine, would bring federal control.

MASONIC CLUB PLANS ENTERTAINMENT

Waiter McNaily, baritone, will sing at the Boston Square and Compass Club next Sunday afternoon a program of vocal solos at 4 'clock, which will be radiocast through Station WNAC. the work of a moment. That is why last year I recommended the establishing of a commission to make a continuing survey of criminal justice in the Commonwealth.

"It is an inefficient method for the tice and the formulation of sugges-tions for its development almost en-tirely to the casual interest and initiative of individuals. The most problem is through the creation of a continuing commission similar to our Judicial Council, representative of the best citizenship of the com-munity, and equipped to find facts, to interpret them, to formulate a program of action based upon them, and to file annual reports with the Legislature for its consideration and action.

In another section of the report, Mr. Benton recommends that the State should continue its endeavors to collect from the United States Government, a claim of \$233,885 for money expended by the State on coast defenses during the Civil War.

COMPULSORY MOTOR INSURANCE SOUGHT

Several Automobile Bills Are Filed in Connecticut

HARTFORD, Conn., Jan. 19 (A)—Compulsory automobile insurance in Connecticut is proposed in a bill submitted to the general assembly

submitted to the general assembly today.

Two other automobile bills sent in provide for a maximum speed of 40 miles an hour on public highways and 25 miles an hour in cities and lowering the age of applicants for operators' licenses from 18 to 18.

Another automobile measure provides for state and towns to jointly built gravel roads and for an appropriation of \$1,014,000 for this purpose.

priation of \$1,014,000 for this purpose.

The motion-picture tax passed at the last session of the Legislature and which was fought by the theater managers of the State, would be repealed under another measure introduced yesterday.

An amendment to the small loan act is sought in another bill. It would limit small loans to \$300 and interest to \$240 per cent a month or

interest to 2½ per cent a month or 30 per cent a year. Governor Trumbull two years ago vetoed a bill limiting the interest on small loans.

WIDENING OF NEWBURY STREET PROPOSED TO EXPEDITE TRAFFIC

Legislative Bill Would Relinquish State Restrictions Over Land Spaces and Setbacks, and Give Control to the City of Boston

House Bill 237 relating to the widening of Newbury Street between the broker.

Arlington Street and Massachusetts Avenue was before the Legislative Committee on Constitutional Law to-chased from Martin Hays property on Park Vale Avenue, Brighton conday for hearing. It was filed by Eliot Wadsworth, Representative from Boston, on behalf of the Newbury Street Association represented by

Arthur G. McVey, attorney.

The bill is designed to relinquish the five present State restrictions over land space and sebacks and to give this control over to the city which, by eminent domain, would take not more than eight, feet from each side of Newbury Street for widening of the thoroughfare.

Land Sold by State

The five restrictions were imposes when the State sold much of the land when the State sold much of the land in the Back Bay, which prior to 1850 had been tidal flats used for mill G. purposes, at public auction, from 1860 to 1879. Of these restrictions numbers one and three are aimed at especially in the bill. They are:

1. Restrictions regulating the height and character of the building

to be erected, its setback from the street and the use to be made of the building.

A provision, common to all deeds, that "no cellar or lower floor of any building shall be placed more than four feet below the level of the mill dam as fixed by the top surface of the hammered stone at the southeast corner of the emptying sluices."
The level referred to is the same as grade 12; that is, 12 feet above mean

grade 19; that is, 12 feet above mean low water. The streets in the Back Bay are approximately at grade 18. The cellar restriction has the effect to discourage construction of mercantile buildings, hotels, large apartments, and office buildings in the district and to diminish the value of land, Jay R. Benton, former attorney-general, points out.

Doubled in 10 Years

The market value at the corner of Arlington and Newbury Streets with the stipulation removed would be \$10 a square foot more," he said. Property there is now worth about \$30 a front foot, Mr. McVey added, and has doubled in the last 10 years. Among well-known Bostonians who have holdings along Newbury Street are the Hunnewells, Augustus F. Goodwin, Mrs. Ina M. D. Tuttle and Joseph Martin, former secretary

and Joseph Martin, former secretary to ex-Mayor Fitzgerald. The stipulations have been fre-quently violated on Boylston Street, quently violated on Boylston Street, but only infrequently in other parts of the Back Bay, it is pointed out. In 1858 a release was granted the lot at the corner of Arlington and Boylston Streets, that a building should be at least three stories high, to allow the building of the Arlington Street Church.

Release Granted in 1891

In 1891 a release was granted on the north side of Boylston Street be-tween Arlington and Berkeley for the construction of a building for mercantile purposes, and in 1913 a release was granted on Restriction Number Three to a parel of land

which the premises bounded feet, has ould be filled up and graded by the wessell. Helen

1. A stipulation for the laying out and filling in of a passageway 16 feet wide in the rear of the premises to be maintained by the abutters, and—5. A stipulation that the Commonwealth should build a common sewer in the passageway, charging to each lot one half the expenses of constructing the sewer opposite such lot.

CHORAL DRAMA GIVEN DISPLAY OF THE FLAG BY MALDEN SOCIETY

"Bethlehem," by English Composer Is Produced

an old Coventry nativity play, had its first New England presentation displayed in full view of senators and representatives when in their seats. last evening by the Malden Madrigal Society under the direction of Henry Gideon, founder, in Malden High School Hall. The production was musically and pictorically of a high order, and indicative of what may be the Capitol daily. expected from the present movement in America for the development of GAME LAW VIOLATORS

In its concert last evening the Malden Madrigal Society, which was organized only last November, proved that great advances in this form of singing can be made in a compara-tively short time. The chorus of 40 game laws is noted in a recent sum-voices was assisted by Miss Nelly mary issued by William C. Adams, S. Brown, Miss Marguerite Faust director of the state division of fish-Nichols, George Wheeler, Francis Lacas, Fredric Huddy and John Festyn Jenkins. Horace Blackmer was accompanist, Ora L. Larthard 'cellist and Mrs. Constance Ramsay Gildeon nagrator. As the choral was Gideon, narrator. As the choral was sessed against these violators. SCHOOL CHANGES UNDER ANALYSIS

New York Education Director Discusses Proposed State Changes

Amplification of provisions for yo-Amplification of provisions for vocational training and extension education as a means of constructively
offsetting criticism concerning limitation in present school requirements was discussed today by Lewis
A. Wilson, director of the division of
vocational and extension education
of the State Department of Education of New York at the annual
meeting of the Massachusetts Civic
League. The provisions of the conclusion of Mr. Wilson's adthe conclusion of Mr. Wilson's adthe conclusion of Mr. Wilson's adtreefore unable to be present. At
the conclusion of Mr. Wilson's adtreefore unable to be present. At
the conclusion of Mr. Wilson's adtreefore unable to be present. At League.

The discussion was arranged as narticularly pertinent to the situation presented by the presence in the Legislature of two bills cutting practically in half the required attendance at continuation school by pupils 14 to 16 who have left the regular day schools. The time required at present is four hours each week.

dreess the general discussion was dreess the general discussion was left by Joseph Lee, president of the Massachusetts Civic League, and Payson Smith, State Commissioner of Education for Massachusetts, Jeffrey R. Brackett presided.

WORKER FOR HOMES OUTLINES PROGRESS

quired at present is four hours each week.

There is also under consideration a bill introduced by the State Federation of Labor which would raise the age at which children may leave school to enter employment from 14 years to 16 and the Massachusetts Civic League is interested in a solution for the modifying of the school curriculum in order to give boys and girls leaving school at 14 a training on the side of vocational subjects which will be more useful to them than the old requirement of possibly unrelated book training.

In the series of five minute talks which preceded Mr. Wilson's address James Phinney Munroe told of progress made for the two and one-half days Public Service Institute to be held in March at the Massachusetts finstitute of Technology. Mr. Phinney said that the program was rapidly being completed with speakers of national reputation to discuss, from various points of view, the major topic of the Institute which is "The Social Significance and Value to the Community of the Public Services."

Status of Billboards Judge Robert Walcott, chairman

the courts of billboard advertising. The league was influential in framing the bill passed for the regulation of signboards, and is vigorously combating the measures taken thereafter by the representatives of outdoor advertising against the working of the bill.

Miss Florence H. Luscomb, chairman of the league's new committee on the licensing and regulation of roadhouses, reported that the town protective committee intended to lead a concentrated drive between now and April 1 in order to array the influence and forces of local authorities throughout the State on the side of proper licensing of roadhouses.

OUTLINES PROGRESS

Women's Club Department Head Visits Boston

Mrs. M. W. Barry of College Station, Tex., chairman of the Department of the American Home of the General Federation of Women's Clubs, addressed an informel confer-ence of the State Federation of Women's Clubs at state headquarters, 687 Boylston Street, today,

Mrs. Barry stated that much progress had been made in working out American home problems since the

American home problems since the department was started about two years ago. This was to be noted chiefly in the general arousing of the public interest.

Mrs. Barry advised a continuance of the work along lines already undertaken, modified and adapted to local needs, and even more earnestly pursued than previously. The vagueness that necessarily characterized the work at its inception is rapidly giving way to clearly defined lines, she said, while the achievements already recorded of the league committee on bill- achievements already recorded boards, told of the present status in served to give courage and strength

Merrill Jr. A triple tie resulted from a debate arily in December with Rhode Island State and New Hampshire University. The schedule follows:

Feb. 11, dual debate with Colby at Waterville and Orono; Feb. 21, George Washington University here. March 3, Gettysburg College here; darch 11, Middlebury College at Midprise the debating schedule of Uni-

BAPTISTS OPEN MEETING SPRINGFIELD, Mass., Jan. 19 (Special) — Western Massachusetts Baptists met today in the First Bap-tist Church to take part in the nationwide missionary campaign being con-duced in the denomination. The Rev. James Whitcomb Brougher, president of the Northern Baptist Convention, was the principal speaker. Dr. William H. Bowler, field representative

ment two years. When the members went into session Francis Prescott of Grafton, chairman of the committee for the last two years, was a candidate for re-election, while Edward E. Clark of Framingham was favored by certain members of the committee.

GAS AND ELECTRICITY DATA BEING COMPILED

The State Department of Public Utilities today began the work of compiling data under the order passed yesterday by the House of of the rates of gas, and electric companies. Lists of maximum rates of all the gas and electric plants in the the team bringing in the largest State are asked for in the order, to- amount of money from Wednesday gether with an opinion from the department as whether reductions can reasonably be asked in view of the companies' earnings. The report is

The House adopted the order without dissent on a voice vote during yesterday afternoon's short session. The order is that which was drafted by the committee on rules from the measure submitted by Representa-tive Henry L. Shattuck of Boston. The clerk of the House transmitted

MISS ROGERS HEADS NEW TEACHERS' UNION

The newly formed Cambridge local, 195, American Federation of Teachers, the only teachers' union in Massachusetts, held its election of Insurance Company and associate officers yesterday in Malta Hall at during January at the Moyer gaideries. Adding to laureis already won
as a painter, the surprise came with
the showing of lithographs and colored drawings of the Rocky Mountain Union, and district organization dicountry. These are vigorous compositions producing a series of impressions, of which the Cambridge stions producing a series of impressions organization is a part, was

at the meeting.
Other officers elected were: Miss
Florence R. Hunter of the Kelly
School, vice-president; Miss Mary A. Macklin of the Ellis School, secre-Mackin of the Ellis School, secretary, and Miss Stella M. Davis of the Continuation School, treasurer. It was announced that charter members will be accepted until after the next meeting.

METHODISTS TO MEET

at Calvary Church in Lewiston and that Bishop William O. Shephard of Portland, Ore., will preside. Among the out-of-state speakers will be Dr. Samuel Dwight Chown of Toronto, Can.; and Dr. Daniel L. Marsh, president of Boston University.

NEW COMET DISCOVERED

Governor to Give Luncheon to Winning Team Up to Thursday Noon

This was "Governor Fuller's Day". in the 11-day annual budget-balancing canvass of the Y. M. C. A. for \$142,348, so called because Governor Fuller offered a lunckeon at Young's Hotel with him and his council to to Thursday noon. This was explained by Channing H. Cox, former. Governor, at the second luncheon of the canvass at the Chamber of Com-

merce today.

There were 248 present at today; luncheon, and 697 subscriptions amounting to \$16,449 were turned in amounting to \$16,449 were turned in for the first day of the canvass, ft was announced. The winning team, in point of largest number of subscriptions, 45, was that headed by George C. Miller, Division C, awarded the seventy-fifth anniversary birthday cake, donated by the Hotel Minerva, and the winning team, in point of largest amount of money obtained, \$4263, was that headed by Albert P. Everts. Carl A. Magnuson, Division C also, was awarded the silk hat.

Tomorrow Walton L. Crocker, president of the John Hancock Life

something new in prizes this year to 400 volunteers.

A bronze emblem is to be given men who have participated in finan-cial canvasses for two or three years, silver for four years, and gold

years, silver for four years, and gold-for six years.
Esnecial emphasis is being laid on-the Huntington Avenue area canvass this year and John B. Dixon and Gordon Farrier head a team from the Y. M. C. A. dormitory. A group of 10 business men, under George Deme-ter, president of the Huntington Avei-nue Improvement Association, aided Improvement Association, aided by Alexander Adams and C. K. Dwinnell, form the executive committee to promote the Huntington Avenue

area canvass for the last week in April it will be tary, stressed the fact that while most of the Y. M. C. A.'s in the country average 22 and 23 per cent short of being self-sustaining, and are considered well-managed, the Bos-ton Y. M. C. A. is nearly 90 per cent self-sustaining.

PETER FANEUIL STORY TOLD Miss Martha A. Shannon recounted the story of Peter Faneuil, early Boston resident, at the forty-sixth annual meeting of the Bostonian Society in the Old State House yes-terday. Miss Shannon said that the ciety in the Old State House yes-terday. Miss Shannon said that the reason Peter Faneuil inherited the substantial estate of Andrew Fau-euil, his uncle, was because Ben-jamin, Peter's brother, evoked the displeasure of their uncle by getting married and consequently was be-queathed "five shillings and no more." Part of Peter's wealth was invested in building Faneuil Hall.

THE L. W. ROBBINS COMPANY Plane and Hacket Sts., Newark, N. J.

WASHINGTON, Jan. 19 (P)—Authority for making direct loans on veterans' bonus certificates will be kept the company's farm well stocked To Corthell all cattle looked alike. During one of Corthell's visits to the Casterline Farm a drover passing by was attracted by the fine herd of cattle and called out:

"Are those cattle for sale?"
"Sure, I'll sell anything if I get my price," replied Corthell. After dickering back and forth, a price was agreed upon and the deal was closed. The cattle were driven into the road and headed toward town. As they were passing the office of the Brad-ford Oil Company, Casterline spied them, though he did not recognize them as being his own cattle. They appealed to him as a fine herd and walking out to the street, inquired of the drover if they were for sale. The drover replied that he would

banks. General Hines would place no limitation upon the power of the bureau to grant the loans in any instance, if the veterans preferred to deal with the Government rather than the banks.

It would be necessary, the director said, for the bureau to charge a rate of 6 per cent interest, so as not to jeopardize transactions already entered into by the banks at a similar rate. He told the President that 17,000 loans had been made by the banks on the 3,000,000 certificates which acquired loan values on Jan. 1.

General Hines said the bureau has

COMPANY ASKS INCREASED DUTY

Nova Scotia Coal Concern Charges Discrimination

OTTAWA, Jan. 19 (Special)-The Dominion Coal Company of Nova Scotia, a subsidiary of the British Empire Steel Corporation, has ap-plied to the Tariff Advisory Board of Canada for an increase in the duty on anthracite screenings coming from the United States, for an in-crease in the duties or imported coke, and for the abolition of the rebate on American coal used in the manufacture of coke in by-product

ovens. The application was argued by Roy Wolvin, president of the British Empire Steel Corporation, who details the Projects to Act clared that Canadian coal was being discriminated against, and that the manufacturers of coke in the Do-minion should be forced to use the Canadian product. He was backed up in his demands by representatives of the United Mine Workers of

of the Winnipeg Electric Company, which manufactures coke from Amer-ican coal as a by-product of gas, and ican coal as a by-product of gas, and the Algoma Steel, and Canada Steel Companies, having their headquarters at the Soo and Hamilton, respectively. All protested tentatively against the application before the board.

As a result of their protests, the further hearing of the application was adjourned sine die.

RUMANIAN LEU NOT STABILIZED

Finance Minister States This Is Not Yet Possible -Revenue Needed

BUCHAREST (Special Correspondence)-The presentation of the budget for the fiscal year beginning Jan. 1 dispels any remaining hopes that were entertained that 1927 would see Rumania's public finances restored to a sound money basis. In his budget "exposé" the Finance Minister, Jean Lapedatu, states frankly that the means are not yet available for stabilizing the leu.

The new budget is balanced at \$3,390,000,000 lel—about £34,000,000 at present exchange. Revenues and expenditures estimated for 1926 were balanced at 28,250,000,000 lel. For 1927, however, the administration of the posts, telegraphs and telephones —now having a semi-autonomous status similar to that of the state Trailways—will have its own budget. Under the new postal rates, which became effective on Jan. 1, the revenues of the "P. T. T." in 1927 will amount to about 2,000,000,000; and, with the freight and passenger rates that are now in effect, the revenue of the state railways during 1927 will probably be close to 15,000,000,000.
The separate budget of the state railways for 1926 has not been made public, but it is understood to be about 10,000,000,000 lei.

Foreign Debts Funded

By the funding of the British, American and Italian war debts, the 1926 debt settlement agreement made the Co-operative Wholesale Society of Manchester, the agreements also closed in 1926 for indemnifying foreign petroleum companies for the war-time destruction of their properties, and, finally, the obliga-tions derived under the Innsbruck Profocol and the Prague Agreement in respect of liability for a portion of the Austro-Hungarian pre-war debt, the Rumanian Ministry of Fi-

The first provides for a much-needed revision of the taxes fixed as far back as 1923 on agricultural lands and urban properties; the second raises in a drastic manner the revenue taxes on oil products, sugar,

tea, coffee, rice and other commedities used in the country; the third increases from 1 to 2 per cent the tax on business turnover.

Although indirect taxes in 1927 are anticipated to yield 12,629,000,000 —against 10,359,000,000 for the presentations of the processor of the pro against 10,359,000,000 for the prestoms revenue, the most important
item under indirect taxes, is increased only from 7,130,000,000 to
7,150,000,000. Import taxes for 1926
were estimated at 2,500,000,000, export taxes at 4,000,000,000, and miscellaneous items at 630,000,000 of the universities and the Government service. On the other hand the
predominantly Jewish towns of
southern and western Russia were
within the theater of civil war and
suffered far worse pogroms at the
hands of the anti-Bolshevist forces.

respectively 4.080,000,000, 3.885,000,000
and ~595,000,000 a total of 8.040,000,000. For 1927 import taxes are estimated at 4.000,000,000, export at \$2,500,000,000 and miscellaneous at \$50,000,000. In other words, the import and export tax yields estimated for 1926 are reversed for 1927.

With justifiable pride the Finance Minister in his budget "expose" calls attention to the fact that, with the exception of the war debts owing to France and a settlement covering the post-war acquisition of the Lemberg-Carnautzi-Jassy railway, Rumania has now regulated practically all its debt obligations contracted during or after the World War.

Suffered far worse pogroms at the hands of the anti-Bolshevist forces and the insurgent Ukrainian peasant that the insurgent Ukrainian peasant the insurgent Ukrainian peasant that the insurgent Ukrainian peasant the insurgent Ukrainian peasant the insurgent Ukrainian peasant that the insurgent Ukrainian peasant the insurgent Ukrainian death the insurgent Ukrainian death the insurgent Ukrainian the insurgent Ukrainian

MOSCOW (Special Correspondence)—The plan of Jewish land settlement which has resulted in the settlement of 50,000 Jews as farmers in the Ukraine, White Russia, and Northern Crimea during the last two years, and which may lead to the establishment of an autonomous Jewish republic in Northern Crimea was discussed at length during the Congress of the Ozet, or Jewish land colonization society, which has just been held in Moscow.

One of the explanations of the comparative success of Jewish colonization in Russia is the fact that the Soviet Government has at its disposal large tracts of unoccupied land, which it is ready to give away to settlers. It is estimated that 100,000 Jewish colonists can be settled in the Northern Crimea, 200,000 along the shores of the Azov Sea and 50,000 in White Russia. More than 150,000 Jews have registered as applicants for colonization. One of the explanations of the

LONDON-Spectacular as has been the shipping boom it seems now likely to be eclipsed by the remark-able developments in the shipbuild-

of the Austro-Hungarian pre-war debt, the Rumanian Ministry of Finance in 1927 is required to make provision for an addition on account of external public debt charges of approximately 1,000,000,000 lei over 1926. The total required under this head during 1927, at prevailing exchanges, is stated to be "equivalent to more than 4,000,000 sterling."

Briefly, therefore, the net amount of additional revenue required to be found under the new budget is 5,140,000,000 lei, and this is to be secured mainly by an increase of 1,952,000,000 in the yield from direct taxation and 3,270,000,000 from indirect taxes. Three measures are new before Parliament for the purpose of accomplishing this.

Three Measures Outlined

The first provides for a muchneeded revision of the taxes fixed as far back as 1923 on agricultural

among the Russian Jews is primarily regarded by its aponsors from the economic and social angles. The Crimes has, of course, none of the sentimental and historical associations which attract Zionist settlers to Palestine. But it does seem to offer a practical solution for the very seri-ous condition of poverty and over-crowding which exists in the Jewish towns and villages of southern and

western Russia.

The revolution brought both good and evil to the Jews. On the one hand it swept away their civic disabilities and opened to them the doors of the universities and the Government away to the contract of the ment service. On the other hand the predominantly Jewish towns of southern and western Russia were within the theater of civil war and suffered for worse programment.

The result is seen very clearly in the town of Sunderland where no fewer than 20 orders have been placed, thus transforming the idle-ness of the River Wear to a scene of considerable activity. now enables governing bodies to undertake schemes involving the ex-penditure of millions with less anxiety than their predecessors felt in embarking on projects where only thousands of pounds were in-

in embarking on projects where only thousands of pounds were involved.

It is the more noteworthy as this district has been almost on its last legs for work and, as recently as the end of October, out of the 50 shipbuilding berths on the river, only 10 were occupied and of these 10, four berths held ships on which work had been suspended throughout the year.

The demand at the moment seems to be for cargo ships of about 6000 tons. Nearly all the activity in the freight market is so far in the cargo business which the "tramps" can handle. This class of business has been very slack for the last two or volved.

The question of the height of the bridge has been met in the plans which have been prepared by the city engineer, Thomas Somers. Finnieston Street leads down to the river on a considerable slope, and

GREECE MINTS NEW METALLIC COINAGE

ATHENS (Special Correspondence)-The small paper currency in Greece has now been replaced by metallic coinage. This measure removes the inconvenience caused to people trying to sell their most cherthe public by the paper curency on ished possessions.

Sianfu is surrounded by a great condition. The necessity of the change became urgent, obliging the Greek Government to strike pieces of 2 and 1 drachma and 50 and 20 lepta, which have just been put in circulation. The only metallic currency previously in circulation were the 0.10 and 0.20 drachma pieces. The new coins contain 75 per cent

of copper and 25 per cent of nickel.
The 1 drachma minting of the type
Bradbury Wilkinson Company, Ltd.,
of London, as well as the 1 drachma
minting of the type of the Hellenic Anonymous Society have ceased as legal circulation. They will, how-ever, be accepted by the State Treasry and exchanged for the new coins in circulation or for banknotes up to Dec. 31, 1927.

COAL SATISFIES

Analysis Shows Quality Not Very Different From the Welsh Product

THE HAGUE (Special Correspondence)—The introduction of Dutch bunker coal on the international market has been one of the outstanding reatures during the current year. Although Dutch steam coal has been used for some years by different Amsterdam shipping companies, the complexion of the first shaft of the new Maurits Mine, in Limburg, in the autumn of 1925, has made Holland bunker coal an important factor in the international coal trade.

During the autumn of 1925 a number of British, Scandinavian and other steamship owners had con-cluded contracts for Maurits bunker coal to be delivered during 1926. The quality of this new coal, according to the English periodical, Fairplay, is excellent, giving perfect satisfac-tion, while the contracts have been executed with the greatest fairness, notwithstanding the difficult period of the British coal strike.

of the British coal strike.

The Maurits mine is yielding at present about 500,000 tons a year, to be increased to 2,500,000 and 3,000,000 tons in the future, thus bringing it into line with the most important coal mines of Europe. Analyses have shown that its bunker coal contains 24.5 per cent of volatile parts and about 9 per cent ashes. This agrees coal, the results being also about equal. Users of Durham coal found that their machines worked as regu-larly with Maurits coal as with the former, although the Dutch coal cost

The Maurits Mine, working at great depths, had to cope with many difficulties when being established.

The Distribution of **Furniture**

That I's Believe to Be

Unequaled in Values

UNUSUAL preparations have been made for this period Of intensive Furniture selling. Our Furniture Store is filled from street to street with Furniture of standard quality and artistic beauty-most of it brand-new-with a vast duplicate stock filling eight floors of our great Poplar street warehouse.

When we say we believe the values to be unequaled, it is with confidence based on the savings we have procured on our purchases, the price reductions we have made, and the evidence of customers in previous sales who acted upon our advice to EXAMINE AND COMPARE Furniture and prices in all stores.

Therefore, knowing our stocks to be more varied and more attractive than ever, and knowing that we never offered better values, we again urge all who need Furniture to EXAMINE AND COMPARE—and will be happy to abide by the decision.

We have provided bountifully for every Furniture need —Furniture in new designs, of beautiful woods, and combination, for Dining-room, Bedroom, Living-room, Library, Breakfast-room, Sun Parlor and Hall—with thousands of useful and decorative single pieces—all at a GENUINE, SUBSTANTIAL SAVING.

Intercollegiate, Club and Professional Athletic News of the World INDOOR TENNIS

Canadian Championship Gets Under Way Without Any Upsets

AT MONTREAL

MONTREAL, Que., Jan. 19 (Special)
—The Canadian indoor tennis championships started here yesterday when eight matches were played in the first round of the singles and three in the doubles. With the exception of three players from Toronto and one from Detroit, all the participants in yesterday's matches were from this city; but the United States stars will, play today. It is expected that the finals will be played on Saturday.

There were no surprises in the matches played yesterday and with two exceptions the winners were not extended. E. H. LaFramboise defeated Marcel Rainville, 6—3, 6—4, but the latter made amends by eliminating LaFramboise and his partner in the doubles after a three-set match.

The most exciting match of the day was the singles between E. Durand and A. L. S. Mills, both of this city, which took 40 games, Durand winning 12—10, 2—6, 6—4.

Dr. Arthur W. Ham of Toronto, and George M. Lott Jr. of Detroit, Mich., one of the favorite pairs in the doubles, won their opening match without difficuity. The summary:

CANADIAN INDOOR TENNIS SINGLES CHAMPIONSHIP

First Round

B. Doherty, Toronto, defeated A. Simpson, Montreal, 6—3, 6—0.

First Round

B. Doherty, Toronto, defeated A. Impson, Montreal, 6—3, 6—0.

Releasing the Indemnity Fund United States.

Releasing the Indemnity Fund
Miss Wood herself sailed for America
(it was her furlough year) to
lobby for the bill in the American
Congress. She expected to find Washington full of wily politicians. To
her amazement, she met only "honset American men!" All that winter,
she worked for the bill, and in the
spring of 1924 it was passed, reteasing the indemnity fund to China
for "educational and cultural purposes."

Miss Wood Lurried back to China.
Her work was by no means finished.

TONANI AND LORENZ WIN

BERLIN, Jan. 19 (#P—Tonani and
Lorenz, the Italian-German teath, won
the six-day bicycle race which ended
last night. They covered 2310 miles.
They finished two laps ahead of Thollembers and Buschenhagen.
VampstLacquehay and Koch-Rielens. The
United States-French team, R. L. Mchamara and Petri, won
12 of the final 21 sprints. The American
originally had as his partner the German, Tietz, but Tietz had to withdraw,
and Petri, who had also lost his partner,
teamed up with McNamara. They lost
two laps in making this change. Six of
the 14 teams which started at 10 o'clock
Wednesday night finished. Congress. She expected to find Washington full of wily politicians. To her amazement, she met only "honest American men!" All that winter, she worked for the bill, and in the spring of 1924 it was passed, releasing the indemnity fund to China for "educational and cultural purposes."

brary science extend over three years—from the sophomore to the senior class. At the completion of Her work was by no means finished. Hundreds of other schemes de-manded the indemnity fund for "educational and cultural purposes." public library system was only one or many, and the China Foundation for the Promotion of Education and Culture was to decide as to the merits of all and apportion out the funds

Miss Wood believed that public libraries would work, and that the laboring class of Chiua is as anxious to read as anyone. Consequently, she started three free day libraries under the auspices of the Boone Library, in near-by congested districts. And were the Chinese interested? accordingly.

Before Miss Wood returned to China, she interested the American Library Association to such an ex-tent that they sent over to China Arthur E. Bostwick of St. Louis; and with his aid the Library Association of China was inaugurated June 2,

Shortly efter, the China Founda-tion met and voted \$10,000 a year for three years for establishing a Metronewspapers and the construction of these little free libraries in the Hankow 30,000 people came in one year to read. In addition to these free day libraries, the Boone Library School began to operate a system of circulating libraries, 20 books being Library in Peking is one result of miss Wood's valiant efforts for a sublic library system throughout public library system throughou China. Finding the Way
The results of the free libraries
convinced Miss Wood that the nonprofessional, uneducated masses in
China did wish to read, and would
avail themselves of the chance if it
were offered. So she set about the
task of starting the 12 public libraries in 12 Chinese cities. But this
meant money, and money in large
quantities. No mere tutoring to buy
books, no selling of Chinese beads
and embroideries to finance day libraries would suffice. Somewhere a
great sum of money had to be found.

JAMES N. RILEY, just signed by Chicago, gave up hockey while playing for Seattle at the end of the 1923-24 season in favor of baseball, where he is a home-run hitter in the Texas League. With the increased salaries now obtained in hockey, his return was expected. Riley will bolster the Chicago defense cosiderably, and he is not only a big fellow, but knows how to use his body. He was with Seattle on the coast for several years.

Harold Winkler must have been pleased after the Bruin victory over the Rangers in which he tended goal for the Rangers, Monday he was a member of the Rangers, Monday he was sold to Boston, and Tuesday he aided in defeating his former team mates.

ing his former team mates.

George F. Sears, manager of the Springfield Arena, found time to see the Ranger-Bruin game. The Rangers use the Springfield team as a farm for players. Sears is making quite a success of the proposition and states that hockey will grow steadily there. He was a pioneer for minor professional hockey in these parts and gave much of his own time to foster the present league.

Corbeau, veteran defenseman of the St. Patricks, is coaching the team. He also plays a portion of each game. Irving Bally, St. Patrick right wing, will probably be out of the game for two weeks as a result of a collision with one of the Detroit players.

The Montreal Victorias have added one more game to their exhibition series in Europe. They will finish the tour with a game in Milan, Italy.

The Bruins played exceptional hockey against the league-leading Rangers and perhaps the attitude Manager Ross has taken toward getting a winning team by trade or purchase has made the men a more determined lot. Lester Patrick, Rangers' manager, is quite a stickhandler himself on the ice, so he must have enjoyed Fredrickson's work in slipping through the New York forwards and defensemen.

Calgary Defeats Saskatoon by 3-1

PRAIRIE HOCKEY LEAGUE GAME WEDNESDAY Calgary at Moosejaw.

CALGARY, Alta., Jan. 19 (Special)
—Saskatoon Crescents, the club which has been unable to win a game on Calgary ice since Feb. 12, 1923, went down to another defeat here last night, 3 to 1. Like all other meetings between these teams, the game was a strenuous affair with considerable heavy body checking. The Tigers had an appreciable margin on the play and left here last night for their trip around the circuit with a seven-point lead.

Sparrow figured most prominently in the scoring, getting one goal and two assists. Timmins, Calgary goal tender, turned in a nice game, playing brilliantly despite the fact that he had a mishap early in the third period and finished the contest under difficulties.

The shooting of the Saskatoon forwards was weak. While their play in center ice was good they weakened when approaching the goal. Harry Cameron was probably their best player, but the other forwards were unable to work with him.

Mitchell, who scored the first goal for Calgary, displayed the best class since he returned from Minneapolis. Martin, Tiger forward, was also effect.

since he returned from Minneapolis.
Martin, Tiger forward, was also effective. Both teams scored in the first period and the Tigers added two more in the second. The summary: CALGARY SASKATOON

THREE PLAYERS ARE REDUCED

Louis E. Stoddard Re-elected Chairman of the U.S. P. A. Executive Committee

September.

The players reduced in the handicap rating were Malcolm Stevenson and J. Watson Webb, both members of America's last "Big Four," and Eric C. Pedley of California, regarded as one of the leading young players of the country. Webb and Stevenson were reduced from nine goals to eight which leaves the country with no nine-goal players, and Pedley from eight to seven.

Harry East, Stephen Sanford, Robert E. Strawbridge Jr. and J. Cheever Cowdin were lifted one goal spiece to a total of eight. Among the college players Winston F. C. Guest '28 of Yale was lifted from three goals to six. Frank S. O'Relly, formerly assistant secretary and treasurer, was elected secretary and treasurer, making J. Ford Johnson Jr. and J. C. Cowdin, who held these offices last year, honorary officers.

Louis E. Stoddard was continued as chairman of the association. Thomas Hitchock Jr. was added to the executive committee, as were Col. N. E. Margetts and Nelson S. Talbott.

Yale Club Play in the Semifinals

NEW YORK, Jan. 19—Form came back into its own in the Yale Club intitation squash tennis tournament yesterday, after its severe lapse on Monday. The three sirviving members of the first 10 of the sport, Thomas R. Coward, Yale Club, Harold R. Mixsell, Princeton Club, and Rowland B. Haines, Columbia University Club, each entered the semifinals in straight games, by considerable margins, while the fourth place was filled by Edward R. Larigan, the leader of the Crescent Athletic Club, who conquered Burdett H. O'Connor of the Crescent A. C., who defeated William Rand Jr., on Monday, with fair ease. Coward disposed of C. W. Dingee of the Interfraternity Club, in smashing style, allowing only a few points in each game, largely through an occasional let down. Mixsell had a real battle to defeat Rowland H. George, former National Class B champion, only the weakening of the latter in the final stages of each game allowing the National veteran title-holder to win at 15—8, 15—9.

Haines was at the top of his game, as he has been in most of his recent performances and Frank M. Lough-

American Olympic Officials Honored

New York, Jan. 19 THE French Legion of Honor has conferred decorations on four officers of the American Olympic Committee of 1924 for their aid in conducting the quadrennial games at Paris three years ago, it was announced yesterday at local headquarters of the Amer-

ican Olympic Committee.
Col. Robert M. Thompson of Washington, president of the committee in 1924, has been made a commander of the legion; Col. A. G. Mills and Gustavus T. Kirby of New York, vice-presidents of the committee, have been made officers of the legion, and Fred erick W. Rubien of New York, secretary-treasurer of the con tee, a chevalier. Maxine Mongendre, French Consul General here, presented medals and diplomas significant of these honors to Colonel Mills and Mr. Rubien yesterday.

had a chance against the varied play of the Columbian, the score being 15—4, 15—9. Larigan, whose improvement has been the feature of the season, was also brilliant in his play, and though the steadiness of O'Connor forced extra points in the first game, the second was easy. The score was 18—17, 15—7.

There will be no play today, on account of team matches, but Mixseli will meet Larigan and Coward will encounter Haines tomorrow, in best of five games, in the semifianis.

FLORENCE SOLD BY 63-4.

NEW YORK Ja-8.

FLORENCE SOLD BY GIANTS

NEW YORK, Jan. 19 (P)—Catcher Paul
Florence was sale back to the Indianapolis club of the American Association
yesterday by the New York National
League Baseball Club. He was obtained
from Indianapolis in exchange for the
veteran, Grover C. Hartley, early last
season, but did not measure up to
Manager J. J. McGraw's expectations.
The disposal of Florence reduces the
Giants' catching staff to three, none of
whom was with the club last year.
Albert Devormer, former Yankee catcher;
obtained from Louisville, John Cummings, who played last year in the
Middle-Atlantic League, and Samuel
Hamby of Norfolk will share the catching assignments. The New York club
also announced receipt of signed contracts from Burleigh A. Grimes, veteran
pitcher obtained from Brooklyn, Devormer, and Melvin Ott, utility outfielder.

CLASS C TOURNEY IN QUARTERFINALS

Favorites Advance—Yale Club Has Two in Race

Special from Monitor Bureau NEW YORK, Jan. 18—The leaders of the various clubs in the metropolitan squash tennis team race, came through according to form into the round of eight in the United States individual championship in Class (yesterday, when the contest was resumed after the interruption caused by the team matches. The leading Yale Club team has its stars. Harry K. Cross and J. S. Davidson, while the Interfraternities Club, where the event is being held, managed to place three on the list. The remaining places are filled by representatives of Gramercy Park, Princeton and Crescent Athletic clubs.

Park, Princeton and Creacest Attractions.

Both Cross and Davidson had real struggles before they could dispose of their lesser known opponents. Cross met his clubmate, Lambert Prettyman, and the score was 15—12, 15—2; while Davidson encountered Harry Fisher, of the home club, and the latter-carried him to extra points in the second game, before losing at 15—8, 18—15. The summary:

UNITED STATES INDIVIDUAL CLASS

OREGON FIVE HAS BOSTON DEFEATS

Possibilities of Winning the Pittsburgh Downs Ottawa Pacific Coast Title Are Considered Good

EUGENE, Ore. (Special Correspondmce)-W. J. Reinhart '22, head basetball coach at the University of Oregon, will make an effort to retain Northwestern Division title honors and gain another chance at Pacific Coast Conference honors this year with a trio of two-year veterans and a roup of promising sophomores.

Basketball practice started late last Basketball practice started late last fall and Coach Reinhart now has a smooth-working squad that should supply plenty of competition in the thampionship race. Last season the Oregon quintet finished in first place in the Northwest Division of the Conference by winning 10 straight games but lost the Pacific Coast title to the Iniversity of California in the play-ff series. Coach Reinhart and his aggregation

Coach Reinhart and his aggregation have already started to repeat the record set in the first part of last year. On a trip into California from which the team has just returned, the Oregon aggregation won nine games in 10 days against strong amateur teams. Other coast teams making the same trip folded to come through with a trip folded to come through with a trip failed to come through with a

promise at the vacant guard position, but is having strong competition from D. J. McCormick '29 and D. C. Epps '29. Arnold T. Kiminki '28, a member of the squad last year, is also trying for guard. He is light and fast. Westergren is also of the same type but he has had more experience

Epps is also an understudy for Okerberg, at center and may be used in that

position to some extent. Patrick H. Hughes '27 is another trying for the

Hugnes 27 is another trying for the pivot position.

Coach Reinhart has cut his squad to a men, none of whom are football athletes. This is caused from the coach's belief that the two sports call for a different type of muscular development. He admits though that sometimes a good football player may also be a good basketball player, but that it seldom happens. Also Coach Reinhart starts his pre-season training before the gridiron sport is finished for the year. This gives advantage to those aspirants who are not out for the fall sport.

used this season.

Coach Reinhart is facing a rather difficult problem this year in that he has to build for his 1928 aggregation because his trio of veterans will be missing. With this in mind the coach

ossible. 29 a forward pros-T. Scallon '29 a forward pros-C. T. Scallon 29 a forward pros-pect early this season, will not be able to play, it is announced. Scallon was chosen on an all-mythical preparatory school quintet following the playing of a championship series in Chicago two years ago. He represented Franklin High School of Portland and played forward. He was slated for a forward rostition on the Oregon team this sea-

forward. He was slated for a forward position on the Oregon team this season as a running mate for Gunther.

Oregon will open its Conference schedule here Jan. 22 against the strong University of Idaho quintet, which tied for second place in the Northwest section of the Conference last year, Idaho has a quintet of five veterans and is conceded a fine chance of winning titular honors this season.

As a result of records on early tours of the two schools, however, Oregon is given a stronger rating than Idaho.

the coast teams, returning here to finish its schedule. All Conference teams with the exception of the Oregon Agricultural College quintet will be met on this trip.

The schedule appeals to Coach Reinhart because he meets the opposing teams on their home floors early in the season or while they are in a more or less formative period. Then when the final race for the championship is on, Oregon will play on its home floor to its advantage. The schedule follows:

ows:
Jan. 22--University of Idaho 224—State
College of Washington at Pullman; 25—
University of Idaho at Moscow; 27—
state University of Montana at Misoula; 29—University of Washington at
Seattle

Seattle.
Feb. 5—State University of Montana;

year, the Pittsburgh Pirates, emerging from the game with a 6-to-1 victory, the locals scoring their only goal with less than five minutes to play. The visit of the Pirates failed to attract more than 2000 spectators to the game, although four of the visiting team are local boys, Langlois, Darragh, Milks and Roger Smith.

The Pirates broke away to a commanding lead, scoring three goals within six minutes of the start of the game and, while the Senators had a fair share of the play and gave Worters more shots to handle than the winners gave Connell, they were unable to pierce the strong Pittsburgh defense with much success. The Senators again showed that once they have a big lead to overcome they cannot overcome it.

game.

Montreal attacked at the start, but failed to score and half way through the period, Reise carried the puck the period, Reise carried the puck down and on a pass to Burch, the latter scored the initial goal for New York, the only one of the period.

Montreal continued to monopolize the offense in the second period, only once in a while the attack traveling toward the Maroon goal. But every attempt failed, though at one time only four local players were on the ice, Burch and R. Green being in the penalty box.

ice, Burch and R. Green being in the penalty box.

The score was equalized about half way through the third period when a series of passes between Broadbent. Oatman, and Philips resulted in a goal by Broadbent. But no further goals came, making overtime necessary.

The champions still had a triffe in reserve, and a final shift, in which Stewart went on the defense and Oatman shifted to right wing, resulted in the deciding score after eight minutes of play in the overtime. The summary:

WINNIPEG, Man., Jan. 19 (Special)

—Winnipeg Marcons, American Hockey
Association leaders, defeated Chicago
for the sixth time this season last
night. The final score was 3 to 2, and,
as usual, the Cardinals put up a great
battle but were not smart enough for
the league leaders.

Marcons led all the way, but in the
third period, after they had assumed
a two-goal margin, the Cardinals came
near tying the score. Penalties to
O'Meara and Stanley, gave the Cardinals a two-man advantage at one
stage; but Chicago failed to combine
systematically and lost a great chance.
Browne, the league's leading scorerscored the only goal of the first period
on a pass from Somers. Wentworth
was in the penalty box at the time.
Stephenson tied the score after 3m.
10s. in the second period, beating the
Marcon defense alone. At the 11m.
25s mark, however, Marcons regained
the lead, O'Meara scoring on a pass
from Borland, the shot being deflected
into the net off Taylor's body.

Eight minutes after the start of the
third period, Thorsteinson scored on
a pass from Borland. At this stage
O'Meara got a five-minute penalty and
Taylor promptly scored with a long
shot. Try as they would, the Cardinals
could not combine for the tying goal.

ATHLETIC CLUBS TO PRODUCE THE STARS

By Wireless from Monitor Burgau
LONDON, Jan. 19—"Our policy regarding the Olympic Games has in the past been a mistaken one and we do not intend to repeat it." said Charles Fratt, a prominent official of the English Amateur Athletic Association last night to a big gathering of sportsmen at Holborn Restaurant, here, on the occasion of the South London Harriers annual banquet. "We spent a great deal of the last financial grant made by the British Olympic Association in an attempt to produce a strong team," he went on, "but we now purpose leaving that task to the athletic clubs themselves which we hope will include in their programs events likely to bring to light the desired talent. England can not expect to hold, nowadays, the position of pre-eminence she occupied years ago, but the last Olympiad showed she still has a high place to retain. This we are confident she will do at Amsterdam in 1928." The chair at the banquet was occupied by Lord Decles and the company included the present and past champions in many branches of sport.

NEW AIRPORT FOR CHICAGO

Special from Monitor Bureau CHICAGO, Jan. 19—A new airport as been given Chicago by the county as been given Chicago by the county oard. It is located in one of the forest preserves to the west of the down-town district. The board plans to establish other landing fields when occasion arises, according to Charles F. Peterson, chairman of its commit-tee on airports. Permission has been given the Chicago Aeronautical Service to use the new field. Others who wish to employ it will be considered by the board and may build their own hangars or rent those the board con-templates furnishing, it is stated.

LEAGUES DRAW UP **NEW DRAFT RULES**

Will Present Them to Each Circuit for Ratification

FRENCH LICK, Ind., Jan. 19 (4)dajor and minor league baseball rep-

resentatives agreed yesterday on rules governing the transferal of players, which will be submitted to the individual leagues for ratification. The class AA draft price of \$7500 which was opposed by the American Association. International and Pacific Coast League, was retained. They had stood for \$10,000.

Under yesterday's agreement, the majors may have 12 optional players provided not more than two of them have had minor-league service. The pact also provides that majors can send optional players only to Class AA. A and B leagues, the majors to pay double when optional players are recalled.

Commissioner K. M. Landis recommended that the agreement, if ratified, be in force until Nov. 12, 1934 and thereafter until either party gives one year's notice of termination.

thereafter until either party gives one year's notice of termination.

The major leagues agreed to approve umpire reservation and selection, a proposal they always have rejected.

For Class A leagues, the draft price recommended is \$5500; for Class B, \$3500; for Class C, \$2000 and Class D, \$1500. Payment is to be made in full at time of selection.

No player who has not been pre-

No player who has not been pre-viously signed by major league clubs shall be subject to selection from Class AA clubs, until the close of the following season, the agreement reads, or until his name has been on the reserve list three times: from Class A and B

REVIEWS AND LITERARY NEWS BOOK

"So This Is Jazz"

A Review by EDWARD BURLINGAME HILL

"So This Is Jazz," by Henry O. Orgood. less distortion of a simple Mozart theme is eminently just.

"The the penetration of lazz Mr. Osgood expresses his scorn

ITH the penetration of jazz more particularly since its intensive The history of music proves again cultivation from the Atlantic to the Pacific as well as from the Great Lakes to the Gulf of Mexico, it was to be expected that sooner or later the critic would exercise his calling concerning it, and that the musical as historian would make it the object of serious preoccupation.

Now that Messrs. Carpenter, Dela-marter, Sowerby and Deems Taylor (to cite a few among American comosers of acknowledged merit) have upheld jazz from an artistic point of view, the time for earnest consideration and analysis could not be long one, owing to the relative obscurity of the origins of jazz, and to its lack of amenability to systematic analysis. However, Mr. Osgood has had the

courage of his convictions, and if the glamour of novelty has stimulated his enthusiasm rather than a dispassionately critical survey, he has nevertheless produced a vivacious and interesting book. To begin with it is skillfully planned and logically carried out. After a brief chronology and some special manifestations in the form of vocal jazz and that for piano alone. He then considers persuasively the reaction of "spirituals" and "blues" in deof "spirituals" and "blues" in de-termining further the specific characteristics of the maturer tazz style. informative chapters on the "Jazz-Band" and its gradual evolution, and "The Anatomy of Jazz Orchestra-'-the latter a particularly orig-

As is wholly natural and just, due space is given to the personality and career of Paul Whiteman, and his potentially epoch-making con-certs in Æolian Hall. With due discrimination also, Mr. Osgood points out the immense part in Mr. White-out the immense part in Mr. White-

Thereater it was inevitable that the partly from the earlier publication. It is at least two chapters should be devoted to the biography and creative attainments of George Gershwin, who is obviously not only the most tained attainments of George Gershwin, who is obviously not only the most tained attainments of George Gershwin, who is obviously not only the most tained attainments of George Gershwin, who is obviously not only the most tained at the form Central Asia. This region is given by the file of the composer of instance of the composer of instance of the composer of instance of the composer of the composer of instance of the composer of the composer of instance of the composer of the co ery and people, its dialect and weathented composer of jazz, but also one who may go far on the road to the two main reasons why many go far on the road to the two main reasons being the obvious one that its author is a man of Messrs. Irving Berlin, Ted. Lewis, Vincent Lopez and other outstanding figures in the world of jazz brings the book to an epilogue concluded with an opinion of John Alden Carpenter's concerning jazz and its

ery and people, its dialect and weathents one of snowy ranges so vast, and gorges and torrents so deep, that its sparse and semi-civilized dwellers can enjoy only rare intercourse with their fellow-men. Its center is Kash-gar, a fertile plain hemmed in on three sides by mountains and on the fourth by desert.

In Kashgar the writer of this processory and the read attractive gar, and torrents so deep, that its one of the two main reasons being gorges and torrents so deep, that its sparse and semi-civilized dwellers can enjoy only rare intercourse with their fellow-men. Its center is Kash-gar, a fertile plain hemmed in on three sides by mountains and on the fourth by desert.

In Kashgar the writer of this processory and the read attractive gar, and the readers with the virgin world of ice above the could glowed brighter and brighter can enjoy only rare intercourse with their fellow-men. Its center is Kash-gar, a fertile plain hemmed in on three sides by mountains and or the

On the other hand, in his zeal for the subject, Mr. Osgood fails to stress the vast discrepancy in value to be found in jazz literature. In this respect, jazz as well as "classical music" shows the startling variabil-ity of the human mentality. Even the genius does not always exercise his critical sense. To point out the fairly high percentage of the ephemeral in jazz would serve as an emollient to the conservative reader. Willing converts might also take exception to some of Mr. Osgood's statements. Thus to defend "jazzing of the classics because Mozart, Bee thoven and Brahms wrote variations (an acknowledged art form) on melo dies not their own savors of sophis

try. On the other hand, Mr. Osgood's condemnation of Reger for his taste-RESTAURANTS

Division of Music, Harvard University

into nearly every corner of the civilized globe, and irritation at Stravinsky's "Rag-time." the beginning of decadence. If "po-lite jazz" is offensive to the jazz "fan" or "bug," that is scarcely a cogent argument against the assimilation of some features of jazz into music of higher type. Few composers utilizing folk song feel constrained to limit themselves to literal quota-tion or the employment of a primi-tive idiom. Rimsky-Korsakoff discovered that the critics could not disine article. Mr. Carpenter's "polite jazz" in "Krazy Kat" possesses for many an ironic charm because of its adroit mingling of jazz with a more

tory of the use of the muted trum-pet, it would have been well to note that Monteverdi used the muted trumpet a full century before Scarlatti; that Wagner employed them in "Die Meistersinger," and that an American composer, Edgar Stillman Kelley, anticipated Debussy and other French composers by his highly original use of these same in-struments in his "Aladdin" suite, dating from 1884. Similarly, anyone who has read Rimsky-Korsakoff's autobiography will recall that he de-termined to confine illustrations in his treatise on orchestration to his own works, not because he was "malve," but because after reflection he decided that he was better acquainted with his own works than with those of other composers, and could judge them with greater frank-

But these and other unguarded statements should not detract from whole. It contains a considerable teasemblage of facts, and makes a genuine contribution to the subject.

When the time comes to write on jazz with a greater detachment than or splitting rails, but in traveling

Galsworthy's Verse

I F WE could penetrate into the secret places of our famous authors' hearts the aspirations that preamble, Mr. Osgood discusses the etymology of the word "jazz," and etymology of the word "jazz," and only the word "jazz etymology of the word "jazz," and prise us. Writers who appear to gray the early stages of its primitive style. have achieved their ambition through worthy has felt the exultation of the Continuing with an admirable definithe production of a series of succontinuing with an admirable definition quoted from a magazine article by Mr. Virgil Thomson, he further outlines the "hall-marks" of jazz, its Did not Sir James Barrie once write a set of versus on "R. L. S."? And Mr. Arnold Bennett-a lyric from his lips, or rather his pen, printed in a long-ago issue of one of the important monthly reviews, though it does not seem to have been ever reproduced for the edification of later generations. Miss Sheila Kaye-Smith, with the courage of er aspirations, has actually pubher aspirations, has account verse. lished two whole books of verse. And now comes a collection of "Verses New and Old" to remind us that Mr. John Galsworthy has not place in modern literature by virtue

man's success played by the inventive genius of Mr. Grofe in formulating a new idlom in jazz orchestra and "Verses New and Old" has a style, and carefully summarizes the style, and carefully summarizes the style. novelty of his achievements.

Thereafter it was inevitable that at least two chapters should be deat least two chapters and creative.

Those pieces which are newly gathered are the love of

"high-brow" orchestration. There is throughout evidence of no little research.

Verses New and Old. by John Gals-worthy. London: William Heinemann. 5s. 6d. net.

The scent of larches, pinks and dew, And summer sighing in the trees. And snowy breath on every breeze. Take towns and all that you'll find

there, And leave me sun and mountain air! It is plain that while writing such rocks "spiring," Mr. Galsto conceal altogether, of being poets. gives a Kipling effect, recalling "The umult and the shouting dies," and

But his secret ambition to be ac-counted one of the elect must have given him complete satisfaction in such pieces as "Counting the Stars,"
"Wind," "Street Lamps," "Devon to
Me," and "To Beauty," this latter piece having an especial welcome from the present reviewer because it was originally contributed "con amore" to a little magazine he was editing at the time Mr. Galsworthy

THOMAS MOULT. delivered; and as he practically had done no work at all on it: so, long.

A Host to Presidents

HESE memoirs open amid the peace and prosperity of an old estate at Woodstock, Conn., and they close upon a similarly tranquil scene, but not before their author has tasted of the turmoil and the peace where the condition of the turmoil and the peace where the condition of the turmoil and the peace where the condition of the turmoil and the peace where the condition of the turmoil and the peace where the condition of the turmoil and the peace where the condition of the turmoil and the peace where the condition of the turnoil and the peace where the condition of the turnoil and the peace where the condition of the turnoil and t joys certain Irvingesque qualities that enable him to be leisurely with profit, to move with ease through the literary and political circles of other countries. But at the same time he possesses a natural talent for exercising authority and a belligerent contempt for political corruption that proved largely responsible for statements should not detract from his premature retirement from the the value of Mr. Osgood's book as a diplomatic service following the

adroit mingling of jazz with a more sophisticated idiom. The theory is surely tenable, however much individuals may dispute the practice.

In outlining, even briefly, the histhe outset had already been cleared and trimmed by an unusually capa-ble father. But being as independ-ent temperamentally as he was financially, and being, moreover, blessed with unlimited savoir-faire, no matter how critical his duties might be, he was able to render dis-tinguished service, both in his con-sular capacity in Spain at the outbreak of the war in 1898, and as Minister to Venezuela during the dif-ficult Castro affair, and doubtless, but for his untimely retirement, would have figured in still more re-sponsible offices.

Among the author's youthful mem-

ories is the occasion when his father, Henry Bowen, founder of the Independent, invited Abraham Lincoln, who had come to New York for his Cooper Union speech, to come over to Brooklyn to hear Henry Ward Beecher preach. "Mr. Lincoln ac-New York: Alfred A. Knop.

Cather intended it to be and as such into a barren room, high and noble, but bleak. This is a brief story of less than 130 pages, told with such rigid economy of detail and such concentration on the tail and such concentration on the cather intended it to be and as such it is fair to pass judgment upon it, though our respectful evaluation of it does not prevent our wishing that Miss Cather had expended her ability, her penetration and her lucidity of style upon a novel. Beecher preach. "Mr. Lincoln accepted the invitation, made his way alone on foot . . . and occupied our pew. At the conclusion of the services my father introduced him to Mr. Beecher, and then brought him to our house . . . with the idea of keeping him for luncheon; but Mr. Lincoln as he started up the front steps paused, and said that he must, after all, hurry back to his hotel to prepare his speech, as he had only a few hours left before it was to be

Paraclete Skinner by name. "When he (Skinner) took the President's hand, he drew himself up, and, look-ing the President in the eye, said in his deep and dour voice, 'Thank heaven, Mr. President, we are all equal in this country.' The Presi-dent smiled, and replied most cordially: 'Indeed we are.'"

A most "delightful" guest at Wood stock was Oliver Wendell Holmes, who spent the Fourth of July there with James G. Blaine and Governor Chamberlain in 1877. Mr. Bowen, who had been sent by his father to meet the poet at the station, found him with a handbag, wearing a tall white hat and a long linen duster.
"As I led the way to the carriage
he said that he wanted to walk for half a mile, and that he would like to have me keep the carriage not ahead of him, nor behind him, but at his side. As he started off I followed his directions meticulously, and he walked exactly half a mile. Then he motioned to me to stop and, as he took his seat beside me, he remarked: I do not want to talk. ... But after we had gone about a mile he suddenly exclaimed in a cheery voice, 'Now I will talk,' and talk he did in a perfect stream, quite

From the quiet, homelike atmosphere of the American society of the seventies, Mr. Bowen passes to the more punctilious ways of London and finally initiates us into the and said: "No, I have done the pest more punctified ways of London, I could, and I have learned to be and finally initiates us into the satisfied with the best"—a kind of routine and adventure of consular philosophy the children were not and diplomatic life in Spain, Persia disposed to share.

Later on President Harrison was entertained at Woodstock and received all the neighboring farmers in the front drawing-room. The President of which only serves to bring dent shook hands with everyone and seemed particularly pleased with one tall and very solemn veteran, entertaining collection of memoirs.

He made it

possible for

everyone to

be well read

THERE will be a dozen competitors for your big opportunity when it comes. What will influence the man who is to make the decision among them?

"In every department of practical life," said ex-President Hadley of Yale, "men in commerce, men in transportation, and in manufactures have told me that what they really wanted from our colleges was men who have this selective power of using books efficiently."

Not book - worms; not men who have read all kinds of miscellaneous books. But those who have read and have mastered the few great books that make men think clearly and talk well.

What are those few great books? The free book offered below answers those questions; it describes the plan and purpose of

Dr. Eliot's Five-Foot Shelf of Books (The Harvard Classics)

Every well-informed man and woman should at least know something about these fa-mous "Harvard Clas-

The free book tells about it-how Dr. Eliot put into his Five-Foot Shelf "the essentials of a liberal education," how he arranged it so that even "fifteen minutes a day" are enough, how in pleasant moments of spare time, by using the reading courses Dr. Eliot has provided for you, you can get the knowledge of literature and life, the culture, the broad viewpoint that every university strives to give.

Every reader of The Christian Science Monitor is invited to have a copy of this handsome little book. It is free, it will be sent by mail, and involves no obligation of any sort. Merely clip the coupon and mail today.

In Chinese Central Asia

standing figures in the world of an brings the book to an epilogue concluded with an opinion of John Alden Carpenter's concerning jazz and its future.

This comprehensive survey of jazz has many merits. If, at times, its style is somewhat unduly journalistic, the subject may seem to demand "a light touch." The chapters on the growth of the jazz band, and its signal accomplishments in novel sonority and color may well be read and pondered by many a teacher of an artist tens of the survey of his other british to read every fourth by desert.

In Kashgar the writer of this book spent 2½ years in the capacity of a British Consul-General. He was dimsy skies," as Mr. Galsworthy's verse has them, its granite and the post. The pair explored enthusistically in all directions and set leading hundreds of miles of trade volume thus affords glimpses of Central Asian life and is of interest to all who would know something of affairs in this out-of-the-way conserved and pondered by many a teacher of an artist turns to the growth of the jazz band, and its signal accomplishments in novel sonority and color may well be read and pondered by many a teacher of an artist turns to the growth of the jazz band, and its signal accomplishments in novel sonority and color may well be read and pondered by many a teacher of an artist turns to the fourth by desert.

THE HOME FORUM

Recalling an Obscure Lover of Colorado

Islands attracted the attention of E. N. H. Patterson, the brilliant edi-tor of the Colorado Miner, George-town, who published them in his paper. This was Aaron Frost's debut in Colorado journalism. When he returned to Georgetown, he was employed as mining reporter for the Miner, which post he held for a number of years—before drifting on to New Mexico, Idaho, and his native

To chronicle the wanderings of so obscure an Odysseus would be difficult indeed, nor shall I attempt it. By reason of his association with the Miner, his Colorado sojourn stands out most vividiy and excels the rest in interest. While he was preparing the mining reports that were considered an authority throughout the State, he became the self-appointed poet laureate of the surrounding scenic region, publishing his occasional tributes under the nom de plume of Nora, his own name reversed. The scenery which had but lately inspired the brushes of Bierstadt and Moran and made Colorado known to two continents inspired his pen as well. As I believe, he stands quite alone in being the first to attempt for Colorado what Bret Harte and Joaquin Miller accomplished for California, and the elder poets for their respective sections of the country. With him Colorado verse had its beginning— To chronicle the wanderings of so tions of the country. With him Colorado verse had its beginning— and that a worthy one, as a study of his poems in the Miner file re-

His metrical tribute to the region is all the more conspicuous in that it was offered in a day when the majority of his companions were su-

So Aaron Frost wrote of them on the morning of June 3, 1877:

"The day awakes. A placid gladness steals O'er nature's face, which night yet half conceals.

The dreary murmurs of the rushing

vstream, The somber, breeze-kissed pine tree's plaintive theme,
The silvery accents of the tinkling

Alone await the echoes of the hills.

As midnight dews descend on sleeping flowers,

In soft, impalpable and silent showers, So falls the light—we see not whence or where It emanates; but mark its luster

there. No gaudy tints the eastern skies For there Mount Griffith rears its massive form And veils the city from the rising morn: But, fairer far, Aurora's opening

Illume the summits of these granite piles, Light up the towering peaks whereon are rolled
The pallid snows—clear, pure and
bright, but cold,
Crown Mount McClelland with a

flery flush, And clothe Republic in a rosy blush. . . ." Republic Mountain referred to bove and near whose base his own favorite with the poet. He dedicated another poem to it alone revealing therein a knowledge of the rare alpine plants of its summit such as no mere miner ever troubled himself to know.

self to know: "There primulas their hearts of fiame unfold, And eritrichiums sip the mountain

And mirror back the sky's cerulean hue; The alpine clover grasps the scanty

With deep, persistent roots; the Absorbs the colors of day's natal

gold;
There polemoniums droop their close-typed sheets corrected in the bells, nor fail

To lend their fleeting odors to the twenty-eight years ago. Very dif-

Grays Peak, the neighboring unfinished manuscript called "The "mighty monarch of the Rocky" Range," christened in the preceding decade for America's beloved botanist, Asa Gray, drew forth a similar stately and intimate tribute from his withstanding the fact that all critics pen. He knew its rocks—"granite would say they were immature. Joand schistose, Which all thy vast exterior compose," He knew the thousand bright-hued flowers of its base, terior compose," He knew the thousand bright-hued flowers of its base, terior compose, of its tim

The Pottery at Razukan

Dear Mr. Chamberlain,-

. . . I have discovered that at Razukan, which is about one ri north of here, there is a pottery called tem Wert befreien von vernichtender room where I sat at work. He was quite as excited as I was, and, looking back, I rather think he ream unable to identify, called forth a still happier change in the rhythmical pattern, showing Colorado's again; he seemed to think he would unknown poet to be the equal of not a few of his contemporaries:

"Out from a rugged mountain's base A limpid brookiet leaps And glides with wild and gladsome grace

Mid rude and frowning steeps.

Mid rude and frowning steeps.

Mid rude and frowning steeps.

Then sparkles neath a gloomy wood

Where pines grow tall and strong:

And every bough that bars its flood

And every bough that bars its flood

A limpid brookiet leaps

Mr. Koteda, who invited me to his house, showed me many beautiful things which had been made in laumo of old, delicious lacquer-work. This is no longer made so wonder-fully, but there are artists in Isumo. I found out one in quite a curious way. In a temple-court, among several statues of Jiso, I saw one in which the god was represented, as the offer was made in all good faith and friendliness—for those were the but the fact remains that I could not endure the idea.

Some months before the book was finished, Conrad brought me a sealed spread and every bough that bars its flood.

Yours faithfully,
Latcadio Hearn.

Equanimity

Written for The Christian Science Monitor

indicates vision and strength, the result of orderly, constructive thinking.

Looking deeper, we find that equanimity is usually the result of high ideals, accompanied by the moral courage to work these ideals out in the daily routine of existence. Stolidity, stoliusm, indifference, or even apathy may for a moment seem to usurp the dominion and dignity of the calmass born of noble thinking, but they go down in the furnace of experience and under the tests of world problems. That which is born of self-will and trucifixion. under the tests of world problems. That which is born of self-will and pride is then found to be faulty and pride is then found to be faulty and crucifizion.

For over sixty years Christian Science has been enlightening the age, teaching it the spiritual meaning of the Scriptures and their daily application to the infinite unseen and in how the gospel of Jesus and the spiritual truths he taught may be true love and justice.

truly Christian to possess an "equal in order to eliminate greed from commerce, pride from society, and prejutions, from the nations. Confidence in ing equanimity as a Christian grace.

The Apostle James understood the ions to thought, and strength and perfection of God and His way of freedom to speech and action." equableness. In his epistle we read, equableness. In his epistle we read.
"Every good gift and every perfect and pray for that Mind "which was gift is from above, and cometh down also in Christ Jesus," that our hearts from the Father of lights, with whom from the Father of lights, with whom may be opened to Truth and Love, is no variableness, neither shadow of learning not to judge according to turning." True equanimity is born appearances, but to love more, to ine of God, Spirit, endures the shafts of crease our faith in God and our contime, and triumphs over the questions of the ages. It comes to those who are taught of God and disciplined by the false testimony of the senses.

kiel we read of the justice of God's by, while you walk on in equanimity, ways and of His mercy toward those and with increased power, patience, who repent, turn from sin, and and understanding, gained from your do that which is right and pleasing forbearance." in God's eyes. In this chapter the equal ways of God are set forth; and lation of this article into German]

MARKET STILL · DISPLAYING A STEADY TONE

Usual Backing and Filling but Trend Still Seems to Be Forward

NEW YORK, Jan. 19 (P)—Stock prices displayed a firm undertone at the opening of today's market.

A brisk demand was again in evidence for the railroad shares, particularly the dividend-paying issues, and stronger buying support was apparent for some of the motors and equipments which had been heavy earlier in the week.

Gains of a point or so were recorded by International Telephone and United States Cast fron Pipe.

Speculators for the advance appeared to have regained control of the price movement, at least temporarily, with the industrials again taking a prominent part in the advance.

Profit-taking continued to retard the advance in the rails, although early gains of a point or so were recorded by Union Pacific, Reading and Texas & Pacific.

Stocks Have Spurt

Prospects of easier money rates stimulated need activity. Vick Chemi-

Prospects of easier money rates stimulated pool activity, Vick Chemical and Maytag mounting to new record highs, while substantial gains were recorded by General Railway Signal, Westinghouse Air Brake, Eureka Vacuum, Otis Elevator, International Combustion and Liquid Carbonic.

bonic.

Baldwin, which broke more than four points yesterday, recovered more than half its loss before the end of the first hour, and United States Steel common, General Motors, Mack Trucks and Pullman all sold a point or so higher.

Trucks and Pullman all sold a point or so higher.

Foreign exchanges opened steady, demand sterling ruling around \$4.84%, and French francs around 3.96 cents.

Launching of a comprehensive buying movement that embraced an unusual assortment of stocks signalized the cutting of money rates to 4 per cent after renewals had been established at 44%.

lished at 4½.

The change for the better in speculative sentiment was reflected in the rapid marking up of selected issues to the extent of 2 to 3 points, with the advances of a point or so becoming

Domestic Bonds Up

Domestic Bonds Up

Sharp advances in domestic industrials carried three issues to new high prices in today's bond market. Activity in the foreign group continued, while railway liens were quiet.

Stimulated by heavy buying, Warner Sugar refunding 7s rose seven points to \$4, and the first 7s of the same company moved up more than two points to \$5½, establishing new records for both issues. Liquid Carbonic 6s also reached a peak with a rise of two points. There was little activity in other industrial bonds.

South American mortgages were in demand in the foreign list, including Chilean 6s and Brazilian 6½s. French and Belgian obligations also were sought by buyers. Slight gains were made by Rhine Westphalia 7s, Rima Steel 7s, Upper Austrian 7s and City of Lyons 6s.

Little activity took place in the Federal Government group.

An \$8,000,000 issue of 5 per cent convertible debentures of the California Petroleum Corporation was placed on the market.

nia Petroleum Corporation was placed on the market.

DIVIDENDS

Hamilton-Brown Shoe declared the regular monthly dividend of 1 per cent, payable Feb. 1 to stock of record Jan. 22. Pepperell Manufacturing Company declared the regular semiannual dividend of \$4 a share, payable Feb. 1 to stock of record Jan. 18.

Isle Royale Copper Company has declared a dividend of 50c a share, payable Feb. 19 to stock of record Feb. 4. Three months ago 50c a share, payable Feb. 19 to stock of record Feb. 4. Three months ago a dividend of \$1 a share was paid.

Edison Electric Illuminating Company of Brockton declared the regular quarterly dividend of \$2 \(\frac{1}{2} \) c a share, payable Feb. 1 to stock of record Jan. 20.

IN ACTIVE DEMAND IN LONDON MARKET

LONDON, Jan 19—The demand for investment issues continued active on the stock exchange, with many issues making good gains. The success of the Government conversion loan has created a lower interest rate.

The market public has come to recognize the immense losses suffered by industrial concerns in the recent coal strike and investors are putting most of their funds in gilt edge securities. The recent cut in Courtaulds interim divided has created a bearish feeling toward industrial issues.

The Government's strong attitude on the Chinese situation has also helped investment securities. Foreign bonds were steady.

GREAT NORTHERN'S INCOME Great Northern's December gross revenues are officially estimated at \$7,927, 140, compared with \$8,937,418 in 1925, and

A special meeting of the stockholders of the Island Creek Coal Company has been called for Monday, Jan. 31, at Portland, Me. to consider increasing the common capital stock from 169,000 chares authorized to 650,000 shares authorized.

DETROIT EDISON EARNINGS Detroit Edison Company reports for the year ended Dec. 31, 1926, net earnings of \$9,798,125 after taxes, charges, etc., compared with \$3,299,285 in 1925. December net was \$1,114,916, compared with \$1,299,962 in December, 1925.

Stocks at Boston Unexpectedly Large - Foreign **Prices Show Advances**

The wool market has continued on teady basis during the last week, far as the local situation is conrned, in spite of the unexpectedly tree stocks which were revealed in he report of stocks as of Jan. 5.

Many in the local trade were of the

olnion that the stocks, when rewould total something like 75 ported, would total something like 75 per cent as large as the 62,000,000-odd pounds reported a year ago. Consequently, there was not a little surprise shown, when it was discovered that there were 81,000,000 pounds of wool owned by the Boston wool trade. The stocks of domestic wool are considerably larger than had been thought likely at 54,000,000 pounds, or 20,000,000 pounds more than a year ago, while stocks of foreign wool fell off slightly from the level of a year ago.

There seems to have been comparatively little effect discernible from the publication of these figures, upon the market. It is quite probable that the manufacturers hoped they might have a depressing influence upon prices, but if that is so, they were unquestionably disappointed.

It seems highly probable that had the report shown a considerably smaller quantity of wool on hand, say under 50,000,000 pounds, it would have had an enlivening effect upon the market, especially in view of the fact that prices are so firm in the foreign markets.

More Contracting in West These considerations undoubtedly are responsible for the contracting movement which already has commenced in the West. It is estimated that some \$,000,000 pounds of wool have been contracted on the sheep's back in Texas at prices which have now reached the \$6 cents level.

back in Texas at prices which have now reached the \$6 cents level.

A week ago, contracting wool on the sheep's back had been done by only one house. This week, at least three large operators are reported to be buying on the sheep's back, with the consequent rise of a cent a pound in the grease for the wool.

In other sections of the West, it is reported there has been some effort made to purchase next spring's clip on contract, but apparently with little success outside of Texas. The wools which have been purchased in Texas, the fits basis is believed too high at the commencement of the season, unless wool is to bring much more than the dollar basis for selected fine staple wools.

dollar basis for selected line staple wools.

In accordance with expectations, the London Colonial wool auctions opened the first 1927 series yesterday with offerings of about 110,000 bales, which is rather small quantity. Prices were very firm and generally against the buyer. The finer merinos, that is, qualities above 64s, were 5 per cent dearer than similar wools at the close of the December series, and medium crossbreds were up 5 per cent, while greasy Capes were against the buyer.

Plea Wool Position Strong

Thus wool rosition of the very fine wools shown to be an especially strong one, due to the scarcity of the cheicer very fine wools in Australia. This was illustrated again last week in Tasmania where 70-80s clothing wools of the choicer type are estimated to have cost almost the equivalent of \$1.50, clean basis, laid down Boston, in bond.

\$1.50, clean basis, laid down Boston, in bond.

The selection this year in Tasmania is understood to have been a very good one. Competition for these wools was fairly general. Short but free combing 70s wools of the super type were costing \$1.15@1.17, clean in bond, laid down Boston, while 64s were bringing usually \$5@97 cents, and sometimes. as high as \$1 for the choicest wools.

Prices in Sydney, last week, advanced a penny clean, and this week, with a good selection, the market is up another cent, clean basis, on 64s combing super wools. For the choicest 64-70s, \$1.05@1.07, equivalent clean basis, in bond is reported paid, while super combing 64s are generally bringing 95 cents to \$1, and occasionally up to \$1.01.

The market for 60-64s good to choice Inla

87@91 cents laid down clean, in bond, and for 60-58s about 85 cents usually. New Zealand Prices Steady

The Melbourne market is open for be first two days this week, with teelong open today and tomorrow. The selection in Melbourne this week is reported as a poor one, but prices have been well maintained on steady

have been well maintained on steady competition.

In the New Zealand sales, prices appear to be moving along on a fairly even keel. The bulk of the good wools is now being offered, and there is fairly good competition for these wools from nearly all sections, but more especially from the English buyers who have been keen for these wools. There will be a sale in Wanganui on Friday. The Cape season is rapidly closing. Prices were up 5 per cent last week. At the East Indian auctions in Liverpool, which opened for a six days sale yesterday, and concluding next Tuesday (Saturday omitted) with offerings of 28,000 bales, prices were just about on a par with the closing rates of the last series, although medium yellow wools were sometimes down about 5 per cent.

No good wools such as are imported to this country for the clothing mills were offered yesterday. Many looked for a rise of 5 to 10 per cent in carpet wools at this sale, in view of the difficulties which the carpet trade has been having in procuring wool of late.

Local Market Quiet

Local Market Quiet

Sales in the local market have not been large, manufacturers showing a disposition to wait and see what effect the stock report might have in influencing prices of wool to a lower basis. Some three-eighths combing territory is reported to have been sold in the clean range of 85@87c, although some buyers contend they can get this wool at 83@85c.

For strictly fine staple selected territory of the best type \$1.10 is asked, and \$1.07@1.08 is usually obtained for really choice wool. Half-blood combing is quottable fairly at just about an even dollar, clean basis. Some quarter-blood is being moved semioccasionally at 77@78c.

Fleece wools have been quiet but generally are firmly held. Some delaines have been sold at 45@46c in the grease, according to the wool. Half-blood and three-eighths usually are quoted at 45c and quarters a cent less.

Woolen wools are steady with mod-

Woolen wools are steady with mod-erate demand from the mills as a whole. Noils are firm at last week's

Price 'evel.

Some choice original Texas mohair was sold at 63c, and some kid hair at 77c, which prices are slightly lower, 3 or 3c than formerly.

LONDON WOOL SALES LONDON WOOL SALES LONDON, Jan. 19 (27)—At the wool les held here today 12,007 bales were creed, of which 10,000 were sold. There as a good selection, which met a steady mand, the French and Belgian sec-ons being active. The values at tha

General Motors Output Has Big Gain-Some Companies Fall Behind

MOTOR RESULTS

Based on production figures for 1926, it is estimated the eight leading motor companies whose stock are listed on the New York Stock Exchange increased their earnings approximtely

The total earnings of the eight com Dodge, Hudson, Nash, Packard, Studebaker and Willys-Overland, are estimated at \$293,013,000, compared with

mated at \$298,013,000, compared with \$240,297,000 for 1925.

While individual estimates may be changed as more complete figures are available, they give a clear picture of the developments during 1926 as affecting major producers as well as the reflection these results found marketwise.

The eight companies produced close to 90 per cent of the automobiles manufactured last year, excluding Ford, and it is safe to say they earned more than this percentage of total earnings in the industry, excluding Ford, and it is safe to say they earned more than this percentage of total earnings in the industry, excluding Ford. In 1926 their production aggregated 2,428,000 vehicles. In 1925 their output was 1,971,000. The 1926 figures shows a gain of 457,000 or nearly 23 per cent over 1925.

That the prosperity indicated was not evenly divided is shown by varying results. General Motors alone produced an estimated 1,225,000 vehicles last year, compared with \$35,902 in 1925, a gain of \$38,000. This is seauch.

INVESTMENT TRUST SECURITIES

fecting major producers as well as the reflection these results found marketwise.

The eight companies produced close to 90 per cent of the automobiles manufactured last year, excluding Ford, and it is safe to say they earned more than this percentage of total earnings in the industry, excluding Ford. In 1926 their production aggregated 2,428,000 vehicles. In 1925 their output was 1,971,000. The 1926 figures shows a gain of 457,000 or nearly 23 per cent over 1925.

That the prosperity indicated was not evenly divided is shown by varying results. General Motors alone produced an estimated 1,225,000 vehicles last year, compared with \$35,902 in 1925, a gain of 389,000. This is equal to 86 per cent of the total gain shown by the eight companies.

Dodge showed the second largest gain in 1926 with 330,000 vehicles, compared with 25,000 in 1925, a gain of 44,000 or 47 per cent. Chrysler with 175,000, compared with 33,000, a gain of 44,000 or 47 per cent. Chrysler with 175,000, compared with 35,000, a gain of 44,000 or 47 per cent. Chrysler with 175,000, showed a gain of 39,000 or 28 per cent, and Packard with 35,000, compared with 30,000, gained 15 per cent. Hudson, Studebaker and Willys-Overland showed some recession from 1925.

In varnings similar differing results

Overland showed some recession from 1925.

In earnings similar differing results are shown. Here the gain by General Motors alone exceeds the total gain by the eight companies, for its profits in 1926 are estimated at \$183.674.000, compared with \$116.016.000 reported for 1925.

The increase in General Motors

for 1925.

The increase in General Motors earnings for the year is \$67,658,000. A part of this gain is accounted for by absorption of the minority interest of Flaher Body Corporation June 30, 1926, while the 60 per cent of this subsidiary's profits were included prior to that date.

count is not sufficient to change the fact that the corporation's profits, fig-ured on the same basis as in 1925, ured on the same basis as in 1925, alone accounted for more than the entire net gain by the eight companies.

If taken as a unit, combined earnings of the seven companies, excluding General Motors, are estimated for 1926 at \$109,339,600, compared with \$124,281,000 in 1926, a decline of \$14,-942,000.

Nash has already reported an in Nash has already reported an in-create in earnings over 1925. Packard has reported a decrease, and Chrysler is expected to show a slight increase. Dodge Brothers is expected to report about the same earnings as last year, while all the other companies are ex-pected to show some falling off in earnings.

New units, tOld units, #Ex-dividend. CAR LOADINGS GAIN

CAR LOADINGS GAIN
WASHINGTON, Jan. 19—Loadings of revenue freight in the week ended Jan. 3 totaled 340,800 cars, the American Railway Association announces. This was an increase of 33,178 cars over the corresponding week last year and 630 cars over the similar week in 1925. Coal loadings for the week of Jan. 7 totaled 214,-176 cars, an increase of 20,863 cars about the like week last year but 3455 cars below the corresponding week in 1925.

RAND KARDEX SALES GAIN Rand Kardex Bureau, Inc.'s sales for December totaled \$2.282.818, exceeding by 19 per cent the best previous month in the company's history. Such sales were at the annual rate of \$27,000,000, or about 30 per cent greater than sales during the year ended Sept. 30, 1926.

INTERBOROUGH'S SURPLUS Interborough Rapid Transit reports for December surplus after taxes and charges of \$592,074, compared with \$500,579 in December, 1925. Six months' deficit was \$700,023, contrasted with a surplus of \$457,109 in the similar period of the pre-

DOME MINES, LTD. EARNINGS. Domes Mines Ltd., for the year ended Dec. 31, 1926, reports net of \$1.742,760 after taxes but before depreciation and depletion, compared with \$2,053,008 in 1925.

READJUSTMENT PERIOD ABROAD SEEN NEAR END

and ruling favorably on recent validating legislation is of special interest to the Investment Bankers' Association of America and to the investment public generally.

The decision says in part:

We are of the opinion that if the bonds were originally subject to attack on constitutional grounds, they have since been validated by Act of the Legislature of Texas.

The Governor convened the Legislature in special session for the purpose, among others, of passing "necessary legislation that will validate and legalize State, County, Commissioners' Precinct and Special Road District bonds or securities whose validity has sentent with the decision of the purpose of the country of the country of the purpose, among others, of passing "necessary legislation that will validate and legalize State, County, Commissioners' Precinct and Special Road District bonds or securities whose validity has at their annual meeting. the closing year in the period of after- pay good profits has been fully dem- business proposition. The vote of

the closing year in the period of afterwar readjustment for European nations. This is the prediction made by Paul M. Warburg, international banker and chairman of the International Acceptance Bank, Inc., in his annual report submitted to stockholders at their annual meeting.

"From a violently disturbed sea of unfettered inflation," Mr. Warburg says, "we see the world now emerging into the smooth waters of balanced budgets and stabilized currencies."

After citing the numerous countries which have returned to the gold standard during 1926, he says:

"It would seem as if we might expect that the year just begun would see the few remaining prodigal sons returning to the fold of the gold standard family. The year 1927 would thus mark the end of the period of fiscal and currency anarchy into which Europe was thrown as a consequence of the Great War."

"The loans granted by the United States to foreign countries in recent years have no doubt played a most helpful part and it would seem that in 1927 Uncle Sam will have to continue to play the rôle of a world banker. But the degree to which countries will be able to take care of their own wants without an excessive appeal to foreign markets will be one of the soundest tests by which to measure the growling economic strength of these nations."

In reviewing conditions of the last few years, and recalling predictions made earlier, Mr. Warburg says:

"We charted 1924, the year of the Dawes Plan, and 1925, the year of Locarno, as the economic and political turning points, as milestones marking the end of war and decline, and the beginning of Europe's rise and return toward normal conditions.

"The year 1926 may be written down as having accomplished the greatest progress yet achieved in this direction, so much so that one would feel inclined to chance the prediction that 1927 should prove to be the closing year in the period of after-war readjustment."

In regard to domestic conditions Mr. Warburg says:

"American activity and prosperity

Justment."

In regard to domestic conditions Mr.
Warburg says:

"American activity and prosperity
reached record heights in 1926, and it
is generally anticipated that 1927 may

show more modest figures both as to scope and profits.

"A general contraction of business which, in itself would not be a seriou which, in itself would not be a serious matter, and might simply mean that production cannot always proceed at top speed and in record volume, would logically entail a tendency toward easier money in the new year. The agricultural problem, however, remains puzzling."

GREENFIELD TAP & DIE Preliminary estimated results of operation for Greenfield Tap & Die Corporation for 1926 indicate net profits before depreciation of more than \$708,000. compared with \$556,244 for 1925 and \$317.940 for 1924. After depreciation and dividends on the preferred stock, the balance for the common stock is \$2.30 a share on 129,953 shares, compared with \$1.54 a share (after 8 per cent preferred sinking fund) in 1925 and a deficit in 1924.

Municipal Electric Plant Pays Governing Costs of Ponca City

Profit of \$550,000 Reported in Five-Year Period-Cost of Enlargement to Be Paid From Receipts -Offer of \$1,000,000 Refused

PONCA CITY, Okla. (Special Cor-| cial-committee to the entire citizenespondence)-That a municipally ship was that the bonds be voted and owned public utility can be made to the plant continued as a proved ousiness proposition. The vote of the five-year period ending June 30, 1926, the municipal electric plant has cleared approximately \$550,000 with the citizens paying no larger rates than are paid élsewhere in the State and in some instances the rates here are less.

The vocalities been fully demonstrated in Ponca City, where for the citizens on election day was more than 5 to 1 favoring the bond issue. This is a city of approximately 20,000 population, yet the only city tax is one to form a sink-ing fund to pay off bonded indebtedness. Of course, Ponca City has the regular school, county and state

The result is that for the third year in succession there has been no general municipal tax here, although the city has provided many additional tax an estimate of \$50,000; buy lant at an estimate of \$50,000; b year in succession there has been no general municipal tax here, although the city has provided many additional facilities, far in advance annually of the amount of money which the law provides could be raised by a general tax. It is simply the result of putting the municipal plant on a business basis, the same plan as would be adopted for any industry or by any privately owned public utility.

That the citizens have confidence in the municipal plant continuing to received from public utility corpora-tions to buy the municipal plant, all

in the municipal plant continuing to the municipal plant continuing to the municipal plant, all of these have been turned down destrated through them voting in a special election \$300,000 with which to rehabilitate the plant at once. Under the law it is necessary to vote the base of the plant at once. Under the law it is necessary to vote the bonds, putting the city back of them, but in reality the bonds will be paid at the rate of \$50,000 annually for a period of six years out of the profits of the municipal plant, and without a cent of additional taxation to the people. This will leave at least \$100,000 annually in profits to be used by the city in carrying on other improvements desired for the city.

Prior to voting the bonds recently with which to build up the municipal plant, the local Chamber of Commerce named a special committee of 25 business men to make a thorough

25 business men to make a thorough investigation of the records and make a report to the entire citizenship the exact status of the plant and its earnings. A sub-committee and its earnings. A sub-committee of six was named to make the detailed investigation.

The recommendation of the spe-CITIZENS NATIONAL BANK ESTABLISHED IN 1890

for emergency.

It was shown by the special committee that on the basis of its present earnings the municipal plant is worth \$2,000,000 and that any action to dispose of it should meet with vigorous composition. vigorous opposition. Last word in hotel con-RIGHT in the ness and theatre districts, and con-venient to all railroad, street car and bus lines. Has the quiet re-finement of an exclusive club. o this is California

If you have come to California expecting to find a golden empire steeped in romance but have discovered yourself encompassed instead by throbbing industry like New York's or Chicago's, make note of this:

There is in Southern California a rural community unique in the history of the world ... Rancho Santa Fe ... a 9000-acre segment of an old Spanish grant now cut up by a subsidiary of the Santa Fe Railway into income-producing estates. Early California charm is being revived, but with practical modern aspects.

Men of means who have qualified are building here their ideal homes . . . certain that the rigid restrictions as to architecture and uses of land will forever preclude detracting influences . . . confident that rich soil, equable climate, adequate water and a pledged program of development now threefourths fulfilled will result in value-appreciation.

Every building and every activity at Rancho Santa Fe is so rigidly controlled that one's neighborhood can never be spoiled nor the loveliness of this natural Eden sullied.

Over \$4,000,000 has been spent on improvements and 70% of the original acreage has been sold. Disposal of land, however, is not the main purpose of this project but is only a means to an end, the real object being to create traffic for the Santa Fe Railway.

From now until sold, certain choice parcels hitherto reserved for special development are made available. You are cordially urged to make inquiry, either by the coupon below or by a personal visit, as to the requirements for purchase.

Rancho Santa Fe

SELECTIVITY INCREASED IN **SETS OF 1926**

Review of Developments of Past Year Takes Up This Point

A brief review of some of the high lights in set technical develop-ments during the last year is given in this first of two articles by Dr. Alfred N. Goldsmith of New York.

Radio progress during 1926 has been of a more quiet and less spec-tacular variety than during several of the preceding years. There has nevertheless been a substantial im-provement in radio receiving equipment generally available to the public, and there have been several outstanding changes in radio conditions which have had their effect upon, and been reflected in, the types of equipment now on the market and the general trend of apparatus dethe general trend of apparatus de-

The most conspicuous alterations in radio conditions have been, first, the advent of the higher power radiocasting station, and, second, the increased congestion in the ether resulting from the more or less haphazard selection of modified or new wave frequencies by previously. ously, existing or recently established radiocasters.

High power radiocasting, as prac-

ticed at stations WGY at Schenec tady, KDKA, at Pittsburgh, and WJZ at New York, utilizing powers of sev-eral tens of kilowatts, has rendered a greatly improved service possible to the rural listeners, and has in-creased the reliability of service in general to the listening audience, particularly during the summer months or in the regions where electrical disturbances had hitherto in-terfered with radio reception. The existence of high-power radiocasting stations has naturally required the use of reasonably selective receivers in the vicinity of such stations.

A considerable number of medium power (5-kilowatt) stations have also been established recently in large cities, and have accordingly laid lown high signal field strengths with improved service in the homes of a multitude of listeners. Here again selectivity in the receiving set has become a definite necessity.

The recent attitude of the Govern-ment (resulting from an admission that the present radio law is inadequate for the control of radiocasting wave frequency assignments) has led to the appropriation by many radiocasters of wave frequencies hitherto refused to them and, in many cases, unsuitable for use by them. In a number of the larger cities, so many stations have crowded into the lower frequency (longer wavelength) portions of the assigned radiocasting band that only a highly selective re-ceiver will successfully discriminate between such stations in the home of

To a large extent, the same inter-Gerence conditions exist in a consider-able portion of the rural area of the United States; and there can be no doubt that the selectivity require-ments of radio receivers are considrably more rigorous than has hereto

fore been the case.
Fig. 1 shows in simple graphical form approximately what can be achieved in the way of selectivity in modern receiving sets of various types. It is assumed that the receiver in each case is tuned to a frequency of 660 kilocycles (wave-length of 455 meters). The signal field strength required to produce a standard signal of comfortable in-tensity in the loudspeaker has been plotted as the ordinate of the curves at this point. As the signal frequency is altered (leaving the receiving set tuning unchanged), the cor-responding field strengths required to produce the same standard signal in the loudspeaker are successively

plotted.

As will be seen, the single-circuit receiver requires but little increase in the field strength of an undesired signal, as much as 50 kc. removed from the original frequency, to

"Buy a *Good* Radio and tune in on J.O.Y"

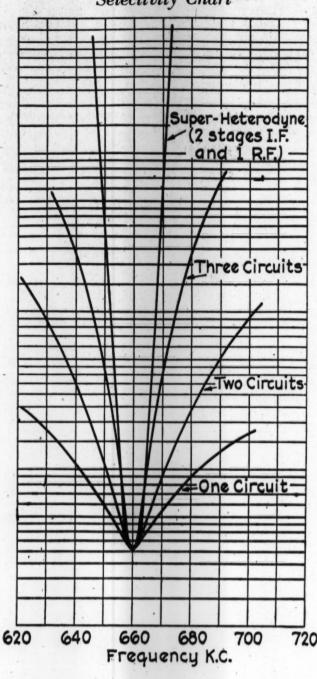

With a KOLSTER Radio, the RADIOLA, or one of the new CROSLEY receivers you can travel the air route to entertainment and fun,

A. W. MAYER CO. Kenmore 2551

C. E. MFG. CO., PROVIDENCE, R. I Write for complete data sheet

Selectivity Chart

cause the loudspeaker to reproduce it with standard signal strength. The two-circuit receiver, on the other hand, requires a considerably greater field strength of an interfering signal 50 kc. off the desired frequency to produce an equal disturbance.

quency to produce an equal disturbance.

When the selectivity curve for the three-circuit receiver is examined, it will be seen that signals as much as 50 kilocycles removed from the desired frequency will be practically excluded unless their intensity is extremely high. This is true in even greater measure for a superheterodyne receiver with one stage of tuned radio-frequency and two stages of intermediate frequency.

CHRISTIAN SCIENCE LECTURE Judge Frederick C. Hill, C. S., of Clinton, Ill., will lecture at Third Church of Christ, Scientist, Kansas City, Mo., Jan. 20, at 8 p. m., central standard time, under the auspices of Third Church of Christ, Scientist. WHB will radiocast this lecture on 366 meters wavelength.

What They Are Saying

SIR STANLEY BOIS: "There is a big gulf between the laboratory stage of an invention and the commercial application of it."

ROY L. SMITH: "A cause which cannot number a few false-friends must be very young."

W. H. MORRISON: "No amount of propaganda, commercial or otherwise, can avail if the price of a commodity is too high."

SIR ALFRED MOND: "There are people who say 'No' to every new idea simply because it is new; such people hold back the progress of industries."

PREMIER COATES: "The Empire may be said to exist on good will."

BROWN OPENS EXHIBIT PROVIDENCE, R. I., Jan. 19 (Special)—The traveling collection of book illustrations of the American Institute of Graphic Arts, now in a country-wide tour for its first annual exhibition, opened today at the John Hay Library, Brown University. Sixty-two books are illustrated and on display under the direction of Dr. John F. K. Drury, assistant librarian.

Registered at the Christian Science Publishing House

Among the visitors from various parts of the world who registered at the Christian Science Publishing House yesterday were the following:
Carl W. Sells, Cambridge, Mass.
Mrs. Charles A. Benford, Newton Center, Mass.
Miss Helen Ruth Benford, Newton, Mass.
W. A. Heltman, San Francisco, Calif.
Kathleen Wallace, New York City.

JUST So

Two little children were engaged in an absorbing conversa-tion.
"What are anarchists?" said

one.
"Oh, they are people who want everything anyone else has, and they never wash themselves," answered the other. "Oh, I see. They are just little boys growed up!"-Outlook.

RADIO ADVERTISERS

NEW YORK (A)-No radio advertising will be accepted by the National Broadcasting Company unless the applicant agrees to continue his usual schedule in newspapers, magausual schedule in newspapers, magazines and billboards, M. H. Aylesworth, president of the company, told the New York radio editors. Mr. Aylesworth said his concern is not seeking advertising at the expense of older advertising mediums.

T WAS a lovely gocart! It had "I can't get in!" said the gocart four bright red wheels — two again, and it didn't. small ones in front and two large ones at the back. It had soft red cushions, too, to make it warm for turn it."

Then the driver turned it over on the side. "It won't go," he said, "anyway I turn it." winter riding. Little Jim thought it the very finest gocart in the world, "you can set it on the porch again. I'll come for it tomorrow." and he clapped his hands for joy

every time he went riding in it. You can imagine, then, how glad You can imagine, then, how glad he was when Grandaunt Delia came into the nursery one day with her hat and coat on, and asked him whether he wanted to go for a ride. Mother was out and nurse was busy, so Grandaunt Delia put on his warm winter togs and away they went! Teddy the bear sat on the red cushion on one side of him, and Taffy the cat, on the other. They all sat very straight and looked around with wide-open eyes.

Grandaunt Delia had an errand at the house of a friend some distance

the house of a friend some distance away, so they rolled along, block after block, for quite a while. They rolled past house windows, full of flowers, and store windows, where pussycats were sleeping in the sun. They rolled past little dogs sniffing along on the pavements, and little pigeons strutting around in the streets. They rolled past other little

streets. They rolled past other little boys and girls riding in other little gocarts, and at last they came to the house where they were going. Grandaunt Delia helped them all out and they went inside, leaving the gocart on the porch.

They didn't stay very long, but when they came out again they found that Mr. Wind was out, too, having some fun. He was rolling the gocart along the porch and fluttering the blanket about. And no sooner had they started on the homeward ride than he came rushing along in front of them, and tried to blow them back the other way.

Grandaunt Delia, who was a very small lady indeed, pushed along a few steps, and then she said to little Jim. "Why won't my gocart come in too?" asked little Jim. "It's a good gocart!"

"It's too big," said Grandsunt Delia.

"Oh dear!" said the gocart. "I'm big to be sure but I can get into that taxi, I know."

And this time the driver must have heard it, for he said.

"Wait a minute, I'll try again."

He looked the gocart over carefully, and then with a laugh he bent down and touched s spring. Then the gocart laughed, too, and it folded up its front wheels over the seat and slipped into the taxi as easily as any-

Jim, "This high wind is too much for

me. We will call a taxi to take us home again, gocart and all." And so she did. The chauffeur lifted little Jim in first, with Teddy, the bear, in one arm and Taffy, the cat, in the other, and then he helped Grandaunt Delia. The gocart watched them get in one by one, and it said to itself:

CHICAGO, Jan. 19—Western mills have reduced steel sheets by \$2 a ton. Blue annealed are now quoted at 2.40 to 2.50 cents a pound, black sheets 3.10 to 3.20 cents, and galvanized 3.95 to 4.05 cents. "I'm such a big gocart, I wonder if I can get into that taxi." Nobody heard it say anything, and it must have looked very large indeed, for the chauffeur, after he LOUIS HARRIS had merely glanced at it, said,
"That gocart'll never go into this

taxi! "Oh!" said Grandaunt Delia cheer HELD TO OLD SCHEDULE fully, "I guess it will—just try it and So the driver tried-he tried it

ROADS

ROADS

Kansas City Star: The same argument against a connected system of state roads is heard now in Kansas that was familiar to the people of Missouri five years ago: "We don't want to build peacock lanes for the tourists." This year the tourists left about \$60,000,000 in Missouri, largely because of the state road system. The tourist money was only a small part of the road "dividend."

Kansas might build a Chinese wall around her borders, and it would be no more effective bar to tourist traffic than its mud roads, . . . Certainly, Kansas is not so short-sighted as not to see the monetary return from the tourist business alone. Kansas is not so provincial it does not desire to visit the folks in other states, or to shut itself off from the motorists of other states. It would be as logical to urge tearing up the trunk line railroads, and relying on branch line service entirely, as to argue against the advantages accruing from trunk line high-ways.

Detroit News: The old-timer who hauled the Yule log up from the wood lot through ave feet of anow has a grandson who warms the bouse by twidding a thermostat indicator an eighth of an inch.

Non-Voter Menace
Chattanooga Times: Lack of sufficient interest in candidates and public issues to cause men and women to express themselves through their ballots lies at the bottom of much that is wrong with the present-day government. If crooks get into office, obviously the good citizens who fail to vote are largely responsible for it. If legislatures pass foolish laws, those otherwise good citizens who take no interest in selecting members of their legislatures must be largely to blame. . . So long as such men and women fail to exercise the franchise, they ought to feel a sense of responsibility and shame for every shortcoming of their government and for every scandal connected with it.

slipped into the taxi as easily as any-thing.
"Hurrah," it shouted, "here I am! I may not be a taxi, but I'm a per-fectly good gocart." And away they all went.

It is to be trusted that the rumors of impending Cabinet changes in France will be dissipated

The Poincaré-Briand Combination and that the Poincaré-Briand combination will continue its good work. From many points of view, it would appear to the world in general that the alliance of the two statesmen has been the most satisfactory alli-

ance recorded for many years in French history. Indeed, what has been done by these two former opponents will be better appreciated if it is recalled that France has just emerged from one of the most critical periods of its history. For over half of the year 1926, pessimists considered that national bankruptcy could scarcely be averted. A gloomy view was taken of parliamentary institutions. Democracy was challenged. Recovery seemed almost impossible. In the foreign field, the breakdown at Geneva in March, when Germany was unable to take its seat in the League of Nations, which was a condition of the Locarno Pact, seemed to spell failure for M. Briand.

The past few months have seen the entire reversal of the situation. M. Poincaré formed a national coalition. He stopped the franc from plunging into the abyss. He brought it back to a tenable position. He passed laws which, though necessary, had previously been fiercely opposed by the deputies. He balanced the budget and obtained the vote on the budget before the end of the year-an unusual though desirable operation. M. Briand, on his side, repaired the damage of March, and brought his peace policy to fruition.

From January to March the franc was constantly dropping. The first Briand Cabinet of the year then resigned. The Socialists perpetually menaced the second Briand Cabinet, and Raoul Péret, the Finance Minister, was unable to save the franc. It had gone from twenty-five to the dollar down to thirty-four to the dollar when M. Briand was again overthrown in June. In the meantime, however, the Mellon-Bérenger debt agreement had been signed, and the war in the Riff and the troubles in Syria were, if not ended, at least showing signs of amelioration.

Once more M. Briand returned to power in June, with M. Caillaux as Finance Minister. But M. Caillaux asked for a sort of dictatorship. In spite of his great reputation, there was no confidence in his somewhat vague plans. The franc slumped without respite. It went to forty-eight to the dollar. The treasury was empty, capital was exported, the confusion was unparalleled, and the Chamber was in turmoil.

The situation could not last. The populace was becoming keenly aroused. M. Herriot acted as a kind of buffer, receiving the force of the people's animosity on himself, when, on July 17, he and his supporters overthrew the Briand-Caillaux Cabinet. He was obliged logically to form a ministry himself. That ministry was overthrown after a single day of existence. The people clamored before the Palais Bourbon and before the Elysée. They demanded the cessa-tion of party strife. The Bloc des Gauches, or the Cartel, as it is sometimes called, of Radicals and Socialists, had definitely failed to fulfill its electoral promises, and the untimely quarrels had brought it to disaster and had almost brought France to disaster.

There was a national cry for union. Then it was that M Poincaré, former President of the Republic, accepted the apparently hopeless task of restoring public confidence. He worked with celerity, assisted, it should be stated, by M. Herriot, and M. Painlevé, and M. Marin, and M. Tardieu-by the Radicals and by the Nationalists who were aroused to the peril. Only the Socialists were left aside.

Within a week his financial program was ready. He immediately obtained powers of de-The franc began to recover. A sinking fund was established which eased the Treasury. The Chamber, thoroughly alarmed, did everything that M. Poincaré asked it to do. If anything, the franc recovered too quickly, and the economic life of the country was somewhat disturbed. That, however, is the penalty for past blunders. The feat of passing the budget in thirty-six days has never before been done, and anything resembling M. Poincaré's performance has not been seen for forty years. Stabilization is still to be achieved, but there would appear to be a de facto stabilization.

In the meantime M. Briand continued to work for political rapprochement between France and Germany. In the industrial domain, France and Germany were united in the formation of a steel trust, and they came to other economic agreements. Germany was admitted into the League in September and the Locarno Pact came into force. M. Briand and Dr. Stresemann in their conversations at Thoiry advanced the cause of peace. It was still further advanced when, at the December meeting of the Council of the League, it was resolved to withdraw the Interallied Military Control Commission from Germany. It is hoped shortly that allied troops will be withdrawn from the Rhineland.

Thus it will be seen that, entirely due to the combined efforts of M. Poincaré and M. Briandin so far as merit can ever be attributed to individuals -- the year which was begun and which continued so ominously ended more satisfactorily than anyone had dared to expect. Therefore, it would surely be a mistake to allow the Poincaré-Briand alliance to break up.

Led by Assemblyman Cuvillier, of a New York City district, the opponents of prohibition in the New York Legisla-

The Wet Lobby Mobilized

ture are becoming mobilized in an effort to make immediately effective what they claim to regard as the deliberate command of the voters of that State that Con-

gress be asked to annul or modify the Eighteenth Amendment. Mr. Cuvillier claims to have received assurances from Senators Edwards of New Jersey, Bruce of Maryland, Walsh of Massachusetts, and Gerry of Rhode Island that they will endeavor to induce the legislatures of their several states to join in petitioning Congress to call a national constitutional convention for the purpose of taking steps to bring about the repeal of what they regard as an objectionable amendment.

The interesting fact is disclosed that although petitions from two-thirds the states are necessary to compel Congress thus to proceed, petitions covering various other subjects from twenty-eight of the forty-eight states are now on file. Thus it appears that if four additional states can be induced to act, the duty of Congress will be made plain, provided the petitions already filed meet the requirements which have been laid down:

This very activity should warn the people of the United States who are not in sympathy with any organized movement to repeal or nullify the prohibition amendment that the time for definite action on their part has arrived. The nullifiers and violators of the law have taken the initiative and have been the aggressors almost since the day when they were awakened to a realization that the traffic they had so long defended had been outlawed by an aroused and righteously indignant Nation. Champions of the law have been content to rest upon the assumption that it could never be repealed. We do not believe it ever will be repealed, but it is well to realize that the very processes which were combined to bring about its enactment can be invoked to encompass its repeal.

The sober and law-abiding people of New York, Massachusetts, Rhode Island and New Jersey are not demanding the law's repeal. Neither are they asking that Congress call a constitutional convention at which the amendment may be revoked. Yet they are not engaged in informing anyone of that fact. They are, for the most part, allowing the bootleggers and their patrons to do all the talking. But they should not forget that their silence may be misconstrued as a tacit admission of their willingness to permit the lawbreakers to do their worst.

One is in duty bound to grant a respectful and considerate hearing to those who, even from

Efficiency in the Factory and on the Farm

motives of self-interest or otherwise, defend the somewhat larger net earnings of capital invested in manufacturing and commercial industries in comparison with those accruing to persons engaged in agricul-

tural pursuits. They present the convincing argument that in competitive industry, where, after solving the problem of economical and efficient production, there remains the continuing problem of profitable marketing. No doubt it will be agreed that agriculture should not be classed as a competitive industry. The main problem of the farmer is to increase and insure production. His market exists, or does not exist, according to the demand for the produce he has for sale, and thus far it has seemed impossible for him, acting independently and without the co-operation of others similarly engaged, to dictate the price which he shall receive.

But the defender of the higher dividends received in manufacturing and commercial pursuits does not stop there. He insists that if those responsible to stockholders and bondholders were no more efficient than the managers of the vast majority of farms there would be no profits to divide at the end of the year. Mr. Henry Ford, who, besides doing several other things well, conducts a profitable farm at his Michigan home, discusses the farmer's problem in his book, "Today and Tomorrow," makes these interesting observations in his chapter entitled Farm Problems are Farm Problems:

Is farming the industry of food production, or is it way of living—or just something to talk about? And what is a farmer? We speak of farmers as though they were all alike. That we know is not true. . . . But they do nave this in common: They are all sections of an industry which only to a small degree has as yet realized that it is an industry. The old farm and the old plantation were nearly self-contained. . . A farmer did not expect to make money. . . What things he needed over and above what he could raise or make on the farm he traded for in kind. The tradition of the farm is not a money condition. It is a living tradition. . . The farm is no longer isolated. . . The farmer has moved out of his little, individual, self-contained world into the great world which is a world of industry, and which has money in common: They are all sections of an indusworld which is a world of industry, and which has money enough to regard as common necessities what the farmer once regarded as extreme luxuries. The farmer wants as much money for his work as the industrialist gets for his work. The farmer claims that he works harder than does not pay for sweat. It pays for results. Industry application of management and power, has

neen able to obtain results....
It is not a kindness to help the farmer to dodge the facts. . . The real trouble is that the world has passed on and the farm has stood still. It is now little business in a world of big business. More than that, it is a parttime job in a world that asks for a living on the basis of a full-time job. If a man's time is worth any more than that of a setting hen, then the farm is no place for him to work through the whole year. There is not enough for him to do that is worth while doing. . . . With ma-chinery, the work of plowing, planting, and harvesting will not extend over ten of fifteen days a year. At the extreme outside, his outcor work on crops, exclusive of garden crops, cannot extend beyond a month.

This somewhat courageous statement of what Mr. Ford insists is a fact may be answered by the farmer who shows that it is impossible for him, under existing conditions, to adapt his enterprise to the use of labor-saving machinery, because of the lack of capital. But this would not disprove the important fact. Industry in general has been lifted, by some method, out of an equally difficult rut. Perhaps it may be insisted that if farming has not been similarly emancipated it is no fault of the other industries. If it is believed that the farmer, even should he succeed in doing his necessary work in the time allotted by Mr. Ford, would be com-pelled to remain idle thereafter, Mr. Ford insists that there is work enough to employ the farmers in their spare time. "No one," he says, "has any conception of the amount of work that can be done in this country-if prices are kept down and wages and profits up.

Of course this does not solve the farmer's problem. But there is offered a constructive plan which, if followed, may go far toward solving it. It can hardly be claimed that those employed upon the farms are intensively or profitably occupied if the work which holds their attention and consumes their time for a year can, in fact, be accomplished in less than a month. This does not spell efficiency. The same methods, applied to competitive industry, would not insure the return of satisfying dividends.

The statement of A. Lawrence Lowell, president of Harvard University, in which he de-

President Lowell and College Athletics

fines and clarifles Harvard's athletic ideals and policy, will undoubtedly receive much attention from those who are taking leading parts in the highest educational in-stitutions of the United States, and it well de-

serves their close attention for more reasons than one. In the first place, Dr. Lowell not only speaks as the head of one of the great universities of America, but he also speaks as one who was himself an athlete in his college days. He was a splendid middle-distance runner, being at one time the holder of the Harvard onemile record.

As president of a university which stands among the leaders in educational development, he has, in connection with Yale and Princeton, done good work in elevating the standard of sportsmanship and in the elimination of proselyting. And any views expressed by the leaders of any one of these three universities are justly worthy of serious consideration by every college and university. Dr. Lowell says: intercollegiate contests are a vital element in maintaining athletic interest, for what men admire, that they do; but like other things, these contests are a means to an end, which tend in the popular mind to become an end in themselves.

To make intercollegiate contests serve as a means and incentive to get the vast number of undergraduates, who never try for the varsity teams, to come out for interclass and intramural contests is the task before the college authorities. That Harvard is doing splendid work along this line under the guidance of William J. Bingham, shows that Harvard is making good use of its intercollegiate competitions, and any college which may be paying most of its attention to the big intercollegiate matches as an end rather than as a means to a better end, may well take pattern after Dr. Lowell's definition of Harvard ideals in the

In speaking of intercollegiate football, Dr. Lowell freely admits that the present system has certain defects. No one who has been in close touch with this game but will agree with him. As. Dr. Lowell says, in speaking of intercollegiate football:

Intercollegiate games should be played, in so far as they promote the objects for which the college exists, not in order to maintain a form of sport. They should be conducted for the benefit of the students, by them and by the appropriate authorities of the university, not by others to furnish entertainment to alumni and the public With these ideas in mind, Harvard's director of athletics has desired to reduce the excessive prominence of the games which precede the great final contest with Yale that closes the season; and, supported unanimously by the Committee on Athletics, he decided to do so by not playing continuously, year after year, with any other col-lege. This is the first attempt to grapple with a problem generally felt to be very serious by the people responsi-ble for the welfare of American colleges. It is a coura-geous move, because it is certain to encounter opposition. but it is one that deserves the support of all men who appreciate the duty that colleges owe to the progress of higher education in this country.

Undoubtedly one of the reasons why college football has become overemphasized is the playing of games year after year between the same colleges, and more than probably the policy Harvard is advocating, of having Yale as its only yearly rival, will tend to lessen the importance of the sport. Traditional rivalry is always sure to lead to overemphasis, and it is interesting to note that during the past few years, the games which Harvard has played with colleges year after year have attracted the most intense rivalry so that it will be interesting to see just how much effect the adoption of this policy will have in bettering football conditions.

There is much yet to be done to place college athletics on the high plane which every lover of clean intercollegiate, interclass and intramura sports desires, and Dr. Lowell's declaration of policy and ideals should do much toward bringing about the desired results.

Random Ramblings

Manufacturers of carpets and rugs report better business than for two years with retailers asking for quicker deliveries. In preparing for a brisk spring trade, evidently the sentiment of both manufacturers and jobbers is step on it.

Grandfather, reading that a university professor has invented a machine to test the resiliency of a golf ball, wants to know what the resistance to a lawn mower is per square foot on a neglected front yard.

And now it is noted that the latest thing in men's dress wear is a waistcoat that has no back, slipping on over the head. Yes, there were once shirts like that, used to be known as dickeys—all front, no rear.

Add current events: Wireless report says that the Catalina Island-Los Angeles swimmers were accompanied by radio music during the swim. Wonder what

The Soviets have found a quid pro quo for America's failure to recognize Russia. They have declared American "jazz" bourgeois music, unfit for the

Despite Mr. Webster and his colleagues, many a man will refuse to believe that "getting a rise out of the boss" is better than "getting a raise" out of him. Seventy-five dollars, the minimum charge for conversation in the newly opened transatiantic telephone service, surely goes a long way in this instance.

To the fore again—the question of observation— Are a cow's horns in front of or behind her ears? The Rambler knows, but he won't tell. Can you?

Ramsay MacDonald recently said, "Fewer slogans and more work." Which strikes us as a pretty good slogan.

How the holes get into doughnuts and Swiss cheese is easy, but how do they get into macaroni?

Would the "is" and "are" controversialists say

"Now is the winter of our discontent made glorious summer"—by the seed catalogue.

Many a rubber saves a slipper.

Politics at Pudboro

COMETHING unusual was happening in Pudboro. Never before had I seen the little Sussex town "en fête." Flags were flying from the houses surrounding the market square, a band was playing in from of the town hall and crowds of people were pouring into the building.

Across the principal entrance to the square was stretched a banner upon which was inscribed, "Vote for Diggers, the Farmers' Friend!" Other banners were suspended from the windows of the town hall emblazoned with the name of "Diggers," and counseling the electorate to vote for him. "Diggers for Parliament Means Peace and Pros-

perity for Pudboro!" declared one banner.
"A political meeting! How thrilling! Let's go in," said Mrs. Archibald as my brother-in-law stopped his car in front of the post office. "Er-yes, that was my intention," caid Archibald, grinning sheepishly as he pulled off his driving gloves.

"Archie!" exclaimed his wife, "do you mean—"
"Archibald!" I exclaimed, "is it possible that you— "Quite so, quite so," interrupted Archibald hastily, "but it wasn't my fault, really. You see, the committee was depending upon the Mayor, Squire MacGruder, to take the chair, but he was unexpectedly called to London, and they couldn't get anyone else, so they telephoned me this morning, and I—er—promised to say a few words in introduction of Diggers, and-er-there you are!

"But I never knew that you dabbled in politics," I said. 'Who is Diggers? What's his party?" "Er-Conservative, I think, or Liberal, or Tory-erwell, I know he isn't Labor, he's a titled old chap, Sir

Joshua Diggers." "And you've prepared a speech!" said his wife. "How clever of you at such short notice. But why didn't you

tell-' "Er-well, not exactly a prepared speech. A few remarks only. I shall rely mainly on the-er-spur of the

moment," said Archibald loftily. Mrs. Archibald gasped and gazed at me, but our conversation was interrupted by a tall, red-faced, bare-headed man who rushed across the market square, grasped Archi bald's hand and almost pulled him from the car. glad you've arrived, Plumpton," he exclaimed. "Had almost given you up. We begin in five minutes. Good afternoon, Mrs. Plumpton; we have reserved seats for you all

on the platform. Come along!" As we were conducted across the market square, my sister informed me that the red-faced man was Colonel Roarington. "And now I know wh, poor Archie con sented to take the chair. Ever since Archie spoke at the Kennel Association dinner, Colonel Roarington has sung his praise in ascending keys, and poor Archie feels that he must live up to the colonel's panegyrics. But, oh! why didn't he tell us about it beforehand! The spur of the moment! And I'm sure he doesn't know one politic from another!"

My sister was still whispering excitedly when we reached the anteroom adjoining the stage of the town hall. Here we were presented to Sir Joshua Diggers. He was a portly, pompous personage with a high forehead, partly occasioned by a receding growth of hair. Notwithstanding his gracious smile, one felt instinctively that here was dignity not lightly to be trifled with.

He took Archibald aside and talked earnestly to him for a few minutes, and from Archibald's expression it was evident that he was receiving weighty instructions regarding the introduction. I never knew what information was contained in these instructions, but I can hardly believe it was what Archibald transmitted to the audience.

The town hall platform was rather small, and when we took our seats to the accompaniment of cheering and the blare of the village band, now in a gallery at the rear, we found ourselves with others crowded close together before a table on which stood the inevitable pitcher of water and Sir Joshua sat graciously at ease, which was more than

could be said for Archibald, who, even after the cheering had died away and the band had ceased playing, sat staring uncomfortably into vacancy. Sir Joshua finally nudged him and whispered something, whereupon Archibald arose, adjusted his monocle and solemnly took a

Then he stretched out his hand and was about to speak when a short man with a drooping walrus mustache stood up in the audience near the front and cried, "Wot about Lloyd George? Wot did 'e say!"

Archibald's hand remained outstretched as he gazed

blankly at the speaker. "Wot about Lloyd George? Wot he's only a heckler!" whispered Sir Joshua audibly. Archibald readjusted his monocle, gazed over the head of the interrupter and began:

"Ladies and gentlemen: The immortal Ard of Bavoner-Bard of Avon once said, 'There is a tide in the affairs of men which, taken at the flood, leads on to fortune. ("Wot about—" came from the short man, but someone pulled him down into his seat.) "This is as true today as when spoken centuries ago, and I may be forgiven if I apply it to the present time and place and say that there a tide in the affairs of Pudboro which, taken at the pud-er-flood, pleads on to Parliament! (Cheers, led by Colonel Roarington.)

"As I entered the market square just now, I saw, suspended banner inscribed, 'Diggers for Parliament Means Peace and Prosperity for Pudboro.' (More cheers.) This, fellow citizens, is the tide we should take at the flow with Sir Joshua Jiggers-er-Diggers at the helm, all us pulling at the oars so that the-er-ship of state may steam safely into the port of Parliament.

"The citizens of Pudboro and vicinity desire, above all peace. Too long has the political unrest of the world affected the peace of Pudboro, necessitating the employ-ment of a constable, and thus adding to the burden of the taxpayer. Can we doubt that the election of Si Joshua will enable us to reduce the constabulary force by at least 50 per cent, er—that is, the constable could be employed in the daytime and retire to his bed at night, instead of—er—sleeping out. Sir Joshua will explain all this to you. (Sir Joshua smiled a trifle uneasily.)

"In regard to the prosperity of Pudboro, I can only touch upon what will happen if Sir Joshua is elected. We all realize how Pudboro has lagged behind in the race for posterity—er—prosperity—Pudboro, if I may be allowed to say so, is not yet on the map. We have no post office worthy of the name. A corner of the village store, surrounded by prunes, potatoes and pickled pork, is, I submit, a most unsuitable place for the reception and distribution of His Majesty's post.

"Under the parliamentary influence of Sir Joshua Blig-

gers-er-Diggers, is it too much to assume that a stately building will arise worthy of the-er-new town pump lately erected in the market square? (Cheers.)

"No, fellow citizens, it is not too much to assume. I do not hesitate to go even further. (Loud cough from Sir Joshua, unheeded by Archibald.) Elect Sir Joshua to Parliament, and a new Pudboro will arise! A Pudboro with a new town hall, a public library, a clubhouse, and the state of the present in a known as the Spotted Dog. hotel to replace the ancient inn known as the Spotted Dog. envisage tramways and even telephones, a cinema luxe employing the musical talent of our village band (Cheers and loud bangs on the bass drum.)

"Diggers for Parliament means prosperity for Pudboro! The banner outside says so. Can we doubt it? Can anyone who knows Sir Joshua Stiggers-er-Diggers question his ability to bring these things to pass? When we remember that Sir Joshua is the author of that celebrated treatise on the "Genesis of the Mangel-wurzel Fly,' we may rest assured that prosperity for Pudboro is a forlorn— I should say, a foregone conclusion if we do our duty, if we rise as one man (the short man rose, cried "Wot about—" and was pulled down again) and cast our votes for Sir Joshua, that stanch Liberal who—("Conservative!" corrected Sir Joshua in a stentorian whisper.) Er-I mean to say, Conservative, who has repeatedly said—"

Here the short man rose again, resisted efforts to pull him down, and shouted, "Wot about Lloyd George? Wot did 'e say!" Archibald, unable any longer to ignore the persistent little man, fixed him with a steady gaze and said: "I do not know everything the Honorable Lloyd George has said, but I can tell Mr. Heckler one thing that Lloyd George has not said. He has never said, 'Peace and prosperity for Pudboro!' (Universal cheers, bangs. on the bass drum, and the short man subsided.)

"Now, fellow citizens, I will not detain you longer. I am not sufficiently acquainted with politics to explain to you how peace and prosperity will descend upon Pudboro by the election of Uncle Josh—er—Sir Joshua Big—Jig— er—Diggers to Parliament, but Sir Joshua himself will tell you, and now I have much pleasure in asking him to distress-er-address you."

Cheers, blares on the trombone, thumps on the bass drum followed Archibald's speech, and Sir Joshua arose, stepped to the front, laid a bulky pile of manuscript on table and began to read his speech in sonorous tones An hour and a half later, he gathered up his manuscript, bowed to those who remained in the audience (and there were not many), shook hands with Archibald and a few others, and departed.

And we were still in ignorance as to how "peace and prosperity" were to be showered upon Pudboro, for not one syllable had the great man uttered upon the subject. He had rambled amid the world's political problems, economics, the League of Nations and the Treaty of Locarno, but poor little Pudboro was not on Sir Joshua's map.

"Any chance of him being returned?" I asked, as we sped on our homeward way.

'Chance!" echoed Archibald, "hy, it's a certainty This is only a by-election, and he's practically unopposed."
Then why the meeting, the band, the flags and er-

"My dear old chap!" replied Archibald pityingly, "it is easy to see that you are not a politician. If you were, you would understand.'

"Do you understand?" I asked. "I am not a politician," said Archibald, chuckling.

- 64 The Week in Rome

WHOLESALE prices are gradually declining, but the retail figures show no change and the high cost of was placed by the Minister of National Economy, Giuseppe Belluzzo, before the Superior Council of Economy at its recent session, but it is hardly one that can be solved by resolutions or governmental bodies. The steadily improving facilities for cold storage and marketing which the leading municipalities are providing, and the control over leading municipalities are providing, and the control over private tradesmen which results from the activities of the co-operative stores and those opened under official aspices for government employees are valuable palliatives, and as the conditions of the market gradually stabilize retail prices will undoubtedly deflate. In the meantime the Government has issued a drastic decree for the reduction of the prices of general commodities. The public is greatly aroused at the profiteering carried on all over the country and especially in Rome, and it is carnestly hoped that the measures taken by the Government will be successful.

One of the first acts of Rome's new governor, Prince Spada Potenziani, was to re-establish the decree issued by his predecessor ordering all pedestrians to keep to the left in three main streets of the capital and to cross the streets only at stated points. This is the third time in the brief space of twelve months that this order has been issued, and it is doubtful whether it can really be observed by the undisciplined Roman crowds. The patience of the Metropolitan guards is being severely tried as they politely but firmly request the insubordinate pedestrians to observe the road regulations. observe the road regulations.

The hull of the Augustus, the largest motor liner in the world, was launched a short while ago from the Ansaldo world, was launched a short while ago from the Ansaldo dockyard at Sestri Ponente, near Genoa. The ship has a displacement of 32,000 tons, a dead weight of 10,519 tons, is 216 meters long and 25.50 meters wide. The height of the bridge, of the funnels and of the mast is 28, 44 and 68 meters, respectively. The driving power is furnished by four Diesel engines which give 41,000 horse-power. The ship's speed is estimated at twenty-one knots and exceeds by three knots the speed of the Asturias, which is the fastest ship driven by motor engines afloat. The Augustus will be put into the transatlantic service between Italy and South America toward the end of 1927.

Interesting remains of the old harbor town of Spina ituated at the mouth of the River Po, have been found after four years of patient research work and diligent the form of artistic vases, were discovered in April, 1922, when during the work of land reclamation in the Trebbia Valley canals were being cut. Excavations have since been carried out with great difficulty as the ground is of a marshy nature, but the labors of the director-general of fine arts, who personally supervised the most The first traces of ancient Greek relies, in a marshy nature, but the labors of the director general of fine arts, who personally supervised the work, have now been crowned with complete success. In an area of about a mile about 6000 vases have been brought to light, together with a great number of gold and silver rings, earrings, amber necklaces, buckles and a variety of bronzes

Rome has for many centuries suffered from periodical inundations of the River Tiber and dikes were constructed so as to avoid the flooding of the city. These dikes have now been found to be insufficient since Rome has grown on all sides and the flat outskirts of the city, which are today thickly populated, are completely unprotected against eventual floodings. Government engineers have planned the construction of several new dikes to be built similar in architecture to those already in existence. A wide quay will be constructed alongside the dikes to protect them from the strong currents which often undermine the

The Fascist leaders are not satisfied to see Fascism as the ruling party in Italy, but want to identify it completely with the state. For this purpose a number of measures have recently been adopted, and as a result of these the Fascist transformation of the state is complete. Henceforth Fascism will have its own calendar, but the Fascist year does not commence on January 1, but begins on October 28, the anniversary of the revolution of the Black Shirts. Italy, therefore, is now in the fifth year of the Fascist era, and this date is to be recorded in all public documents and legal acts, together with the ordinary date used throughout the world. Moreover, Fascist officials have become state officials, and the secretary-general of the party is given the rank of ambassador and minister plenipotentiary in court and state functions. Already the lictorial fasces (the bundle of rods carried by the lictorial fasces (the bundle of rods carried by the lictors in Roman days), which have been adopted by the Fascists as the symbol of their party, have been recognized as one of the emblems of the state, and irreverence toward this symbol is a legally punishable offense. The Fascist as one of the emblems of the state, and irreverence toward this symbol is a legally punishable offense. The Fascis emblem is placed on Parliament House, the Ministeria Departments and all public buildings, as well as on the new coins of the kingdom, and all persons are required to raise their hats, in sign of homage, to the Fascis standards, in the same way as they are expected to the factor of the fascis of the fascis
